- 2.4. Entitled Depositors who do not receive the OIS Notification Letter, the ARS or the ARE may contact CDP during the period from the date the Rights Issue commences up to the Closing Date. Entitled Scripholders who do not receive the OIS Notification Letter or the PAL may obtain a copy from the Share Registrar during the period from the date the Rights Issue commences up to the Closing Date.
- 2.5. For practical reasons and in order to avoid any violation of the securities legislation applicable in jurisdictions other than Singapore, the Rights Issue is only made in Singapore, and the Offer Information Statement, the OIS Notification Letter and the accompanying documents (including the ARS, the ARE or the PAL, as the case may be) will not be despatched or, as the case may be, disseminated to Foreign Shareholders. Accordingly, Foreign Shareholders will not be entitled to participate in the Rights Issue. No provisional allotments of Rights Shares will be made to Foreign Shareholders and no purported acceptance of the provisional allotments of Rights Shares or applications for Excess Rights Shares by Foreign Shareholders will be valid. In addition, no arrangements will be made for the Rights which would otherwise have been provisionally allotted to Foreign Shareholders to be sold “nil-paid” on the Mainboard of the SGX-ST.

Such persons are advised to provide their respective approved CPF agent banks with whom they hold their CPF Investment Accounts, their respective SRS Approved Banks with whom they hold their SRS Accounts, and their respective finance companies or Depository Agents, as the case may be, with the appropriate instructions no later than the deadlines set by such intermediaries, in order for such intermediaries to make the relevant acceptances of the Rights Shares and (if applicable) applications for Excess Rights Shares on their behalf in accordance with the terms and conditions in this Offer Information Statement by the Closing Date. **Any acceptance and/or (if applicable) application made by such investors directly through CDP, Electronic Application through ATMs of Participating Banks or through an Accepted Electronic Service, the Share Registrar and/or the Company will be rejected.**

Purchasers should note that the ARE need not be forwarded to the Purchasers as arrangements will be made by CDP for a separate ARS to be issued to the Purchasers whose mailing addresses maintained with CDP are in Singapore. Purchasers should note that CDP will, for and on behalf of the Company, send the OIS Notification Letter with the ARS, accompanied by other accompanying documents, **BY ORDINARY POST AND AT THE PURCHASERS’ OWN RISK**, to their respective Singapore addresses as maintained in the records of CDP. SUMMARY OF THE RIGHTS ISSUE

The following is a summary of the principal terms and conditions of the Rights Issue and is derived from, and should be read in conjunction with, the full text of this Offer Information Statement, and is qualified in its entirety by reference to information appearing elsewhere in this Offer Information Statement.

The Rights Issue

Basis of Provisional Allotment : The Rights Issue will be made on a renounceable non-underwritten basis to Entitled Shareholders on the basis of two (2) Rights Shares for every one (1) existing Share held by Entitled Shareholders as at the Record Date, fractional entitlements to be disregarded.

Issue Price : S\$0.00543 for each Rights Share. The Rights Shares are payable in full upon acceptance and/or application.

Discount : The Issue Price represents a discount of approximately:

- (a) 72.9% to the VWAP of S\$0.02 for each share of HSEL based on the trades done on 26 November 2019, being the last full Market Day when the shares of HSEL were traded prior to HSEL's trading suspension on 28 November 2019; and
- (b) 69.0% to the theoretical ex-rights price of S\$0.01753¹ for each share of HSEL.

The Issue Price and discount have been determined after taking into account various factors, including precedent transactions, and such issue price and discount are in line with the Subscription Price, the Option Price and the issue price of the Settlement Shares to enable shareholders to participate in the recapitalisation of HSEL (and consequently the Company pursuant to the completion of the Transfer Listing) at a similar price to the Subscribers and the Scheme Creditors.

Status of Rights Shares : The Rights Shares will, upon allotment and issue, be credited as fully-paid Shares free from any and all encumbrances, listed and tradable on the SGX-ST and rank *pari passu* with all other existing Shares, save that they will not rank for any dividends, rights, allotments, distributions or entitlements, the record date for which falls before the date of issue of such Rights Shares.

Number of Rights Shares to be Issued : Based on the share capital of the Company of 303,750,000 Shares as at the Record Date (prior to the completion of the Subscriber Transactions, Debt Restructuring, the Transfer Listing and the Rights Issue), the Company will allot and issue up to 607,500,000 Rights Shares under the Rights Issue.

Gross Proceeds from the Rights Issue : The gross proceeds arising from the allotment and issuance of the Rights Shares will be approximately (a) S\$3,298,725 in the Maximum Subscription Scenario; and (b) S\$1,000,000 in the Minimum Subscription Scenario.

¹ Such theoretical ex-rights price is the theoretical market price of each Share assuming the completion of the allotment and issue of the (a) Subscription Shares and the Options pursuant to the Subscriber Transactions; (b) Settlement Shares pursuant to the Debt Restructuring; and (c) Rights Shares pursuant to the Rights Issue (on a Maximum Subscription Scenario), and is calculated based on the last traded price of S\$0.02 for each based on the trades done on 26 November 2019, being the last full Market Day when the shares of HSEL were traded prior to the HSEL's trading suspension on 28 November 2019, and the number of Shares of 3,650,716,721 Shares following the completion of the Rights Issue (but assuming none of the Options are exercised).

SUMMARY OF THE RIGHTS ISSUE

Use of Proceeds : The net proceeds arising from the Rights Issue is approximately S\$3,118,725 in the Maximum Subscription Scenario and approximately S\$820,000 in the Minimum Subscription Scenario. In both the Maximum Subscription Scenario and the Minimum Subscription Scenario, 100.0% of the net proceeds from the Rights Issue are to be utilised for general working capital purposes.

The approval in-principle of the SGX-ST is not to be taken as an indication of the merits of the Rights Issue, the Rights, the Rights Shares, the Company, its subsidiaries and/or the Shares.

Upon the listing and quotation for the Rights Shares on the Mainboard of the SGX-ST, the Rights Shares will be traded on the Mainboard of the SGX-ST under the book-entry (scripless) settlement system. All dealings in and transactions (including transfers) in relation to the Rights Shares effected through the SGX-ST and/or CDP shall be made in accordance with CDP’s “*Terms and Conditions for Operations of Securities Accounts with CDP*”, as the same may be amended from time to time, copies of which are available from CDP.

For the purposes of trading on the SGX-ST, each board lot of Shares will comprise 100 Shares. Shareholders who hold odd lots of the Rights Shares (that is, less than 100 Shares) and who wish to trade in odd lots on the SGX-ST should note that they are able to trade odd lots of Shares in board lots of one (1) Share on the unit share market of the SGX-ST.

Trading of Rights : Entitled Depositors who wish to trade all or part of their provisional allotments of Rights Shares on the SGX-ST can do so during the Rights Trading Period.

Acceptance, Excess Application and Payment : Entitled Shareholders will be at liberty to accept (in full or in part), decline or renounce their Rights and are eligible to apply for additional Rights Shares in excess of their provisional allotments under the Rights Issue. Entitled Depositors are also able to trade their Rights on the SGX-ST during the Rights Trading Period prescribed by the SGX-ST.

SUMMARY OF THE RIGHTS ISSUE

Fractional entitlements to the Rights Shares will be aggregated with provisional allotments which are not taken up or allotted for any reason to satisfy excess applications for Rights Shares (if any) or disposed of or otherwise dealt with in such manner as the Directors may, in their absolute discretion, deem fit for the benefit of the Company.

In the allotment of Excess Rights Shares, preference will be given to the rounding of odd lots, and Directors and Substantial Shareholders who have control or influence over the Company in connection with the day-to-day affairs of the Company or the terms of the Rights Issue, or have representation (direct or through a nominee) on the Board, including the Undertaking Shareholder Entity, will rank last in priority for rounding of odd lots and the allotment of Excess Rights Shares.

The procedures for, and the terms and conditions applicable to, acceptances, renunciation, splitting and/or sales of Rights and applications for Excess Rights Shares, including the different modes of acceptance or application and payment, are contained in **Appendices A to C** to this Offer Information Statement and in the ARE, the ARS and the PAL (as the case may be).

RISKS RELATING TO THE GROUP'S BUSINESS

Demand for the Group's services is dependent upon the existence of projects with needs in respect of mechanical engineering, plant fabrication and installation and plant maintenance, and in particular, by the demand from companies in the oil and gas, petrochemical and pharmaceutical industries.

Demand for the Group's services is dependent upon the existence of projects with needs in respect of mechanical engineering, plant fabrication and installation and plant maintenance, and in particular, by the demand from companies in the oil and gas, petrochemical and pharmaceutical industries.

The appetite of the Group's customers for approving new projects, extending or expanding existing projects, budgets for capital and operational expenditures and in turn the need for the Group's services have in the past, and may in the future, be influenced by many factors, including but not limited to:

- macro and micro economic conditions generally;
- geopolitical developments, global trade tensions and increasing protectionism;
- volatility in, and access to, capital and credit markets, which may affect the Group's customers' activity levels, and spending for the Group's services;
- global demand for and supply of commodities and chemicals (including but not limited to oil and gas, petrochemical and pharmaceutical products);
- industry outlook of the Group's customers;
- advances in technology;
- impact of increased environmental regulations and transition to a lower carbon economy, including as a result of environmental activism and government responses to that activism and/or increased timeframes to obtain necessary permits or approvals;
- local regulatory environments;
- challenges with productivity and forecast production;
- cost/labour inflation; and

RISK FACTORS

- extreme weather, terrorism, conflict, war, severe pandemics or other global health or social events and other events of force majeure.

In the event that the Group faces decreasing demand from its customers and a shortage of projects over a sustained period due to any of the above factors, the business, financial condition, results of operations and/or prospects of the Group could be materially and adversely affected.

The Group is affected by any possible loss of major customers.

The Group's current major customers are mainly engaged in the oil and gas, petrochemical and pharmaceutical industries. Given that the Group's customers are primarily major oil and gas, petrochemical and chemical companies and pharmaceutical companies and the limited pool of such companies in these industries, the Group has a finite customer base. Revenue from four (4) such customers under long-term service contracts contributed to approximately 84% of the HSEL Group's revenue for FY2023. There is no assurance that the Group will be able to continue to retain its major customers or that its customers will maintain or increase their current level of business with the Group. In the event that any of the Group's major customers ceases to have business dealings with the Group or materially reduces the level of business activities with it, the Group's business, financial condition, results of operations and/or prospects will be materially and adversely affected.

The markets and customers for which the Group works have been impacted by uncertainties and instability in global market conditions which have led to project and investment delays and supply chain impacts.

The Group's business is, and may continue to be, impacted by the uncertainties and instability in global market conditions. Several major events and developments in recent times have significant implications for the world and global economic conditions.

The COVID-19 pandemic had impacted global economic growth and generated uncertainty in the markets in which the Group operates. Continued weakness in the global economy caused by pandemics such as COVID-19 or other similar global events may result in material changes in the financial markets or local or regional economies and may materially and adversely affect the Group's business, financial condition, results of operations and/or prospects. There have also been adverse impacts on the global economy and share markets affecting access to capital markets for funding requirements. The COVID-19 pandemic had also resulted in supply chain disruptions. While the World Health Organisation had announced that COVID-19 no longer constituted a public health emergency, events associated and following on from the COVID-19 pandemic have impacted, and will continue in the short to medium term to impact, the projects and investments of the Group's customers. While bottlenecks in global supply chains have eased as economies globally emerge from the pandemic, supply side disruptions could still resurface from time to time.

In Europe, the Russia-Ukraine war has continued to elevate geopolitical instability which contributed to a sharp rise in the price of energy and non-energy commodities, which had already been affected by the impact of the COVID-19 pandemic. In addition, the sanctions imposed by various countries on Russia has also resulted in increased commodity and food costs which affects the global economy adversely. The steep rise in inflation engendered by the rise in commodity prices has prompted the US Federal Reserve and other major central banks to hike their interest rates aggressively and the US Federal Reserve and other major central banks have also signalled that interest rates could stay elevated for longer to curb the still-high inflation.

The continuing slowdown of the global economy and increasing uncertainties in financial markets could materially and adversely affect the Group's customers who have, among other things, either reduced or delayed their projects and investments, which in turn, materially and adversely affect the Group's business, financial condition, results of operations and/or prospects.

RISK FACTORS

The Group's results of operations are largely dependent on the award of new contracts or expansion or renewal of existing contracts, which the Group does not directly control.

The timing of contract awards is typically unpredictable and out of the Group's control. New contract awards, and in some cases the expansion or renewal of existing contracts, may involve complex and lengthy negotiations or competitive bidding processes. These processes can be impacted by a wide variety of factors including a customer's decision to not proceed with the development of a project, governmental approvals, financing contingencies, commodity prices, environmental conditions and overall market and economic conditions. The Group may not be awarded contracts due to, among other reasons, its price, a customer's perception of the Group's ability to perform or perceived technology advantages held by its competitors. In addition, some of the Group's competitors may be more inclined to take greater risks or include terms and conditions in contracts that the Group might not deem acceptable, especially when the markets for the services the Group typically offers are relatively soft or where a particular project is viewed as significant in terms of size or perceived status.

It is particularly difficult to predict whether or when the Group will receive projects and the Group's results of operations can fluctuate depending on the timing of contract awards and the commencement or progress of work under such contracts. If an expected contract award is delayed or not received, the Group's business, financial condition, results of operations and/or prospects may be materially and adversely affected.

The Group's project execution, including any failure to meet contractual requirements, schedule or cost estimates and professional standards, may result in reduced profits, losses or liability for defective services, any of which may have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

Certain projects for which the Group is engaged can be technically complex and involve multiple phases occurring over several months or years and require internal reporting systems to track the Group's performance and objectives. Accordingly, the Group's project execution activities play a significant role in its ability to successfully meet overall project requirements, its internal reporting requirements, legal and regulatory requirements, meet the customers' expectations and collect payment. Any failure in such project execution activities, may occur as a result of many reasons, including but not limited to:

- incorrect assumptions related to productivity, scheduling estimates or future economic conditions, including with respect to the impacts of inflation on lump-sum or fixed-price contracts;
- unanticipated technical problems, including engineering or construction issues;
- inaccurate representations of site conditions and unanticipated changes in the project execution plan;
- project modifications creating unanticipated costs or delays and failure to properly manage project modifications;
- inability to achieve guaranteed performance or quality standards with regard to engineering, construction, fabrication, maintenance or project management obligations;
- insufficient or inadequate project execution tools and systems needed to record, track, forecast and control cost and schedule;
- reliance on historic cost and/or execution data that is not representative of current economic and/or execution conditions;
- failure to accurately estimate the cost of projects, including due to unforeseen increases in the cost of labour;
- unanticipated increases in the cost of raw materials, machinery or equipment, including due to the imposition of import tariffs or inflationary pressures;

RISK FACTORS

- failure to properly make judgments in accordance with applicable professional standards, including engineering standards;
- failure to properly assess and update appropriate risk mitigation strategies and measures;
- difficulties related to the performance of the Group's customers, partners, subcontractors, suppliers or other third parties;
- delays or productivity issues caused by weather;
- changes in regulations, laws or difficulties or delays in obtaining permits, rights of way or approvals in the jurisdictions in which the Group operates; and
- tax, employment or environmental legislation changing historic practices.

These and other factors may result in the Group's failure to meet contractual obligations, the Group's internal reporting requirements, schedule or cost estimates, professional standards as well as safety performance or other performance criteria. The Group's engineering services involve professional judgements regarding design, development, construction, operations and management of plant, equipment and facilities. While the Group has systems and processes in place (such as, among other things, internal reporting, risk management policies and adopting certain insurance) to minimise its liability of such circumstances, any occurrence of a catastrophic event at one or more of the Group's projects resulting from the services provided by the Group, may result in significant professional liability and/or warranty claims as well as reputational damage.

Any such failures in the Group's project execution activities may result in the Group receiving lower fees or loss of its ability to earn incentive fees, be obligated to perform work without additional fees until the performance criteria is achieved or project milestones or business objectives are met. The Group may also be required to pay liquidated damages if it fails to complete a project on schedule. In addition, if the Group fails to meet guaranteed performance or quality standards, it may be held responsible under the guarantee or warranty provisions of its customer contracts. If such events occur, the total cost of the project (including any liquidated damages and/or consequential damages the Group becomes liable to pay) could be material and could, in some circumstances, equal or exceed the full value of the contract. Consequentially, the Group's business, reputation, financial condition, results of operations and/or prospects could be materially and adversely affected.

The Group's projects are generally non-recurring in nature. There is no assurance that the Group will be able to secure new projects.

While the Group has contracts ranging from three (3) to five (5) years in term with its customers, which it deems as long-term contracts, the Group's projects are generally non-recurring in nature and most of such projects are awarded on an as required basis from its customers. It is therefore critical for the Group to continuously and consistently secure new projects of similar value and volume.

As the contracts are awarded on such a basis, the customers are under no obligation to award contracts to the Group in the future. As a result, there is no assurance that the Group will be able to successfully secure projects from its existing customers in the future or that its existing customers will continue to engage the Group in their upcoming projects after the completion of the current contracts. The Group's ability to successfully secure projects is dependent on a range of factors including, among other things, pricing and tender strategy, competitors' tender and pricing strategy, the level of competition and customers' evaluation criteria. Depending on the then market conditions and competitive landscape, the Group may have to lower its pricing or adjust its tender strategy in order to maintain the competitiveness of its tender. In addition, the scope of work in a project, which is dependent on its scale and complexity, will affect the profit margin of the project and the Group's financial performance. In the event that the Group subcontracts a material portion of the project work to third-party subcontractors, the Group's profit margins from such projects may also be reduced.

RISK FACTORS

Cancellation or delay in the commencement of secured projects due to factors such as changes in customers' businesses, poor market conditions and lack of funds on the part of the project owners may adversely affect the Group. In addition, there may be a lapse of time between the completion of the existing projects and the commencement of new projects. Any cancellation or delay of projects could lead to idle or excess capacity, and in the event that the Group is unable to secure replacement or new projects on a timely basis or at all, this may adversely affect the Group's operations and financial condition.

If the Group is not able to maintain the number of secured contracts at a similar level or obtain new projects of similar or even larger contract sums, the Group's business, financial condition, results of operations and/or prospects may be materially and adversely affected.

Therefore, there is no assurance that the Group would be able to continue to generate revenue through the securing of new contracts or expansion or renewal of existing contracts in respect of its plant maintenance services. The Group may not be awarded contracts due to various factors including, among others, pricing, competitor's pricing strategy and the level of competition. Any loss of existing contracts or failure to secure new contracts or maintain the volume of work in respect of the Group's plant maintenance services may have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

The escalation of global inflation could have a material adverse effect on the Group's business, financial condition, results of operations and cash flows.

Volatile energy prices, agriculture shortages, droughts, war (e.g., the Russian-Ukraine war or the Israel-Hamas war), refugee crises, sanctions and precautions on new COVID-19 variant outbreaks have resulted in a global trend in increased inflation. In this increased inflation environment, if the Group does not remain competitive for its employees' wages, the Group might lose key employees to its competitors or not be able to attract new employees to its business. This could result in the Group not winning new work if it cannot demonstrate that it has the resources to support new projects and meet customers' service needs.

Inflation is also impacting commodity prices, which increases the costs of materials, and the running costs for equipment used for the Group's projects. Such inflation impacts the Group's customers and can result in some of their existing projects no longer being financially viable, which may result in the cancellation of projects and in turn lead to the Group losing the service offerings it was providing to support the project's execution. Inflation can also impact the customers' future decisions on project investments. The Group relies on new projects to tender its service offerings and to generate revenue. If fewer tenders are being released by existing and potential customers as a result of increased inflation, the Group may not achieve its expected budgets and forecasts which would have a material adverse effect on the Group's cash flow, business, financial condition, results of operations and/or prospects.

Any costs overruns will adversely affect the financial performance of the Group.

The Group's revenue is largely derived from long-term contracts ranging from three (3) to five (5) years in term which are typically fixed price and fixed unit rate contracts where the fees are charged by the Group based on the actual work done and services rendered to the customers. The contract value quoted is determined on a case-by-case basis having regard to various factors, which generally include (a) the scope of services; (b) the estimated number and types of personnel required; (c) the price trend of the types of resources required; (d) the complexity of the project; (e) the availability of manpower and resources; (f) if subcontracting is required, the indicative or estimated prices of subcontractors; (g) project duration; (h) the frequency of carrying out maintenance works; (i) the number and location of designated project sites; and (j) the prevailing market conditions. The contracts for project works are negotiated in advance of the actual project execution and projects can vary in duration from several months up to a few years. The Group's profitability is also dependent on its ability to obtain competitive quotations from subcontractors at or below its estimated costs, and the Group's ability to execute the contracts efficiently. Actual expenses incurred in executing the contracts can vary substantially from those originally anticipated for several reasons including, but not limited to, the following:

- unforeseen additional costs related to the purchase of substantial raw materials, equipment and machinery necessary for contract fulfilment or labour shortage in the markets where the contracts are performed;

RISK FACTORS

- mechanical failure of equipment and machinery;
- delays caused by local weather conditions, health issues and/or natural disasters;
- a delay or failure of suppliers, subcontractors or partners to perform their obligations; and
- unanticipated construction constraints at the project site may arise during the course of project execution.

The occurrence of any such circumstances may result in additional work which has not been factored into the contract value which may lead to costs overruns resulting in an erosion of the profit margin for a project. There is no assurance that the actual costs incurred will not exceed the estimated costs due to reasons such as under-estimation of costs, excessive wastage, inefficiency, damage or unforeseen additional costs incurred during the course of the contract. Any under-estimation of costs, delay or other circumstances resulting in cost overruns in a contract may adversely affect the Group's profitability. Additionally, delays in certain projects could lead to delays in subsequent projects that were scheduled to use equipment and machinery still being utilised on a delayed project.

In particular, as projects undertaken by the Group may form part of a bigger project, the Group can only commence work upon completion of a prior aspect of the project by the EPC company or its other subcontractors ("**Handover**"). Delays in Handover are possible. However, as the delays are not within its control, the EPC company may still require the Group to complete its portion of the project on time so as not to affect the entire project's master schedule. In such instances, the Group will incur additional costs, especially labour related expenses, in order to meet the shorter schedule. The Group may subsequently make a claim for such increase in costs from the EPC company. There is no assurance that the Group would be able to recover such costs in full or at all. Any disputes in relation to such payment of additional costs may have a material adverse impact on the Group's cash flow, business, financial condition, results of operations and/or prospects.

Pursuant to the terms and conditions of the contracts, the Group may not be able to increase the price of the contract to reflect factors that were unforeseen at the time the quotation or bid was submitted, and this risk may be heightened for projects with longer terms. In such circumstances, there is no assurance that the Group would be able to pass on such increase in costs to the customers in full or at all. Depending on the size of the project, variations from estimated contract performance, or variations in multiple contracts, could have a material adverse impact on the Group's cash flow, business, financial condition, results of operations and/or prospects.

If the Group and its customers take a different view on the value of works performed in accordance with the terms of the contracts and variation orders, this may result in lower than anticipated profits or losses incurred on the contracts.

During the course of a project, the customer may require the Group to perform certain works which do not form part of the original contract specifications ("**Variation Orders**"). To ensure that the project is completed on schedule, and in accordance with market practice, the Group may, where appropriate, be required to perform the Variation Orders before any additional charges are agreed upon. Such additional charges are subject to negotiations between the Group and the customers. In the event that the Group and the relevant customer fail to reach an agreement on the rate at which the works are determined, or if the Group and the relevant customer take a different view on the value of the work performed, disputes may arise and the settlement of payment may be delayed thereby affecting the Group's liquidity and financial position.

While the Group has review and control processes for its documentation to reduce such occurrences, there will be circumstances where compensation received for the Variation Orders may not be able to cover the extra expenses incurred by the Group for the additional labour and materials used to complete the Variation Order. There is no assurance that the Group would be able to recover the costs of works performed under such circumstances in full or at all, and the Group may not be able to maintain the same or similar profit margins under such circumstances. Any disputes on the Variation Orders and payments may have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

RISK FACTORS

The Group may incur significant costs in relation to warranties offered to its customers.

The Group may incur significant costs in relation to warranties provided as part of its contract obligations. In a majority of the Group's contracts, the warranty period typically ranges from 12 to 60 months, depending on the nature of services provided. In the Group's contracts which provide for fixed and/or lump sum payments, a retention sum will usually be withheld by the Group's customers where it will be released upon completion of the Group's warranty obligations and final acceptance of the projects by the customers. The warranty arrangement typically results in these retention sums being released to the Group in full upon completion of the warranty period, assuming that the Group fulfils its obligations to rectify quality issues with the Group's projects during such period. These warranty periods also consist of work completed by third-party sub-contractors and materials and equipment provided by third party suppliers and/or manufacturers, who are also obligated to fulfil the warranty obligations. Although the Group strives to deliver high-quality services and has implemented internal controls and systems to mitigate the risk of any inability of the Group to fulfil its warranty obligations, there can be no assurance that the Group will recover all or any of the amounts withheld by customers for warranty purposes in the future. If the Group is unable to recover a significant proportion of the amounts retained by its customers as warranties, the Group's business, financial condition, results of operations and/or prospects may be materially and adversely affected.

The Group's business could be materially and adversely affected by events outside of its control.

Extraordinary or force majeure events beyond the Group's control, such as natural or man-made disasters, adverse weather conditions, war (such as the Russian-Ukraine war and the Israel-Hamas war) and pandemics (such as the COVID-19 pandemic) could negatively impact the Group's ability to operate or increase its costs to operate.

As an example, from time to time, the Group may face unexpected severe weather conditions which may result in delays and disruptions in the Group's services (which are mainly conducted in process plants in outdoor locations), evacuation of personnel and curtailment of services, increased labour and material costs or shortages, inability to deliver materials, equipment and personnel to project sites in accordance with contract schedules and loss of productivity. Such climate events may also have a material adverse impact on the quantitative or qualitative attainment of the Group's business targets.

The Group may remain obligated to perform its services after any such natural or man-made disasters, unless a contract provision provides it with relief from its obligations. The extra costs incurred as a result of these events may not be reimbursed by the Group's customers. The Group may also be liable to paying liquidated damages for delays in projects which can result in budget overruns.

If the Group is not able to react quickly to such events, or if a high concentration of its projects is in a specific geographic region that suffers from a natural or man-made disaster, the Group's operations may be significantly affected, which could have a negative impact on its operations. In addition, if the Group cannot complete its contracts on time, the Group may be subject to potential liability claims by its customers which may reduce its profits and result in losses. Please also refer to ***"Risk Factors – Risks Relating to the Group's Business – The markets and customers for which the Group works have been impacted by uncertainties and instability in global market conditions which have led to project and investment delays and supply chain impacts."***

The Group may experience limited availability of funds.

The Group may from time to time require additional financing to fund its working capital requirements, support the future growth of its business and/or refinancing its future debt obligations. In addition to cash generated from the Group's operations, the Group may also, where appropriate, consider external financing, including loans and credit facilities from banks and financial institutions.

There can be no assurance that external financing, either on a short-term or long-term basis, will be made available or, if available, that such financing will be obtained on terms favourable to the Group or that any additional financing will not be dilutive to its Shareholders. If the Group is unable to secure necessary financing or secure such financing on terms which are favourable to it, this could materially and adversely affect the Group's business, financial condition, results of operations and/or prospects.

RISK FACTORS

Furthermore, any such future credit facilities typically contain operational, financial and other restrictive covenants which may restrict, among other things, the Group's ability to incur additional indebtedness or the creation of security over its assets or granting guarantees. The Group's ability to comply with such covenants may also adversely affect the Group's ability to respond to changes in market conditions, take advantage of business opportunities the Group believes to be desirable, obtain future financing, fund capital expenditure or withstand a continuing or future downturn of its business.

If the Group is unable to comply with the restrictions and covenants in its future financing facilities, a default under the terms of such facilities may occur. In such events, the lenders may accelerate their debt and declare all outstanding amounts due and payable or terminate such facilities or commitments. Certain financing contracts may contain cross-acceleration or cross-default provisions. As a result, a default by the Group under any such agreements may cause the acceleration or repayment of not only such debt but also other debt or result in a default under other debt agreements. If any of these events occurs, there is no assurance that the Group will be able to obtain lenders' waivers in a timely manner, or at all, or that the assets and cash flows of the Group would be sufficient to repay in full all of its debts as they become due, or that the Group would be able to find alternative financing, or at all. Even if the Group could obtain alternative financing, there can be no assurance that it would be on terms that are favourable or acceptable to the Group. Failure to service the Group's debt could also result in the imposition of remedies, including increases in rates of interest, or the costs that the Group pays on its legal actions against the Group by its creditors, or even insolvency.

If any such future external debt financing is secured, any such third-party security rights may limit the Group's use of the underlying collateral assets and adversely affect its operational efficiency. If the Group is unable to service or repay its debts under its financing facilities on a timely basis, or at all, the assets provided as security to such creditors may be subject to foreclosure, which may materially and adversely affect the Group's business, financial condition, results of operations and/or prospects.

The Group had in the past defaulted on its repayment obligations under certain loans and corporate guarantee. For example, in 2020, HS Compression & Process Pte Ltd ("**HSCP**") defaulted on its repayment obligations under the loan provided by UOB. HSEL provided a corporate guarantee in favour of UOB in respect of the obligations owed by HSCP to UOB under such loan. Prior to the execution of the UOB Restructuring Deed, UOB enforced its rights under the security it held, including a mortgagee sale of HSEL's property pursuant to the leave of Court granted. The Company was put in judicial management thereafter to manage its operations and undertake a restructuring of its business. Following the implementation and completion of the Subscriber Transactions, the Debt Restructuring through the Creditors' Scheme and the UOB Restructuring Deed, the Scheme Debt and balance amounts owed to UOB were then discharged, released and extinguished. In addition, the exposure arising from the corporate guarantee was also settled pursuant to the terms of the UOB Restructuring Deed and upon successful completion of the Debt Restructuring. The trading in the shares of HSEL was suspended since 28 November 2019 and was lifted after the Latest Practicable Date following the completion of the Transfer Listing on 16 February 2024 pursuant to which, among other things, the Company became the listed vehicle in place of HSEL, and trading of the Company's Shares commenced on 19 February 2024.

There is no assurance that the Group would be able to successfully restructure or settle its debt as they fall due on terms that are favourable or acceptable to the Group, or at all, in the future. In the event that the Group is unable to restructure or repay its debt, this may result in the action taken by its creditors against the Group including insolvency, bankruptcy, liquidation, reorganisation, dissolution or winding up of the business of the Group and/or its subsidiaries.

Instability in the credit markets could cause the availability of credit to be relatively difficult or expensive to obtain at competitive rates, on commercially reasonable terms or in sufficient amounts. Such situation could make it more difficult or more expensive for the Group to access funds, refinance its existing indebtedness, enter into new agreements for new indebtedness, or obtain funding through the issue of securities or such additional capital may not be available on terms acceptable to the Group, or at all. In addition, market conditions could negatively impact customers' ability to fund their projects and, therefore, utilise the Group's services, which could in turn have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

RISK FACTORS

Interest rate fluctuations may lead to an increase in the Group's financing costs.

The cost at which the Group can obtain financing depends on general market conditions, particularly on the development of interest rates and the assessment of the creditworthiness of the Group. If any of the Group's future borrowings are subject to floating interest rates, any increase in the benchmark lending rates will in turn increase the Group's interest expenses and finance costs and significantly impact the Group's results of operations. In addition, a general increase in the demand for loans in the jurisdictions which the Group operates may increase applicable interest rates, resulting in additional interest costs to the Group. In the case of deteriorating general market conditions or a deteriorating creditworthiness of the Group, only debt financing with higher risk premiums may be available. There is no assurance that the Group would be able to negotiate lower financing costs or avail itself to more affordable financing options, or at all. Any such event may materially and adversely affect the Group's financing costs and interest expenses and in turn materially and adversely affect the Group's business, financial condition, results of operations and/or prospects. Please also refer to ***"Risk Factors – Risks Relating to the Group's Business – The Group may experience limited availability of funds."***

Loss of key management and other personnel, or an inability to attract such management and other personnel, could have a material adverse impact on the Group's business.

The Group's performance and growth depend significantly on the performance of the members of its management team.

On and subject to the terms of the Subscription Agreement, Vibrant has, among others, the right to nominate such number of directors as mutually agreed by the parties to the Subscription Agreement. The New Directors, comprising Mr. Sebastian Tan Cher Liang, Mr. Max Tan, Mr. Piti Pramotedham, and Mr. David Ong Kim Huat, were nominated by Vibrant and appointed to the Board of Directors of the Company on completion of the Subscriber Transactions. Concurrently with the completion of the Subscriber Transactions and the appointment of the New Directors, the outgoing directors, being Mr. Frankie Tan, Mr. Richard Tan and Mr. Koh resigned. Even though a new Board of directors has been appointed to replace the outgoing directors and the New Directors (save for Mr. Max Tan) have no track record in the governance of the Group, the Group's management team continues to comprise personnel who are experienced in operating the Group's business. For example, Mr. Max Tan, the Executive Director and Chief Executive Officer of the Company, has been with the Group since January 2018 and is responsible in overseeing the general operations of the Company and assists the then chief executive officer of HSEL in the development and implementation of business strategies. There can be no assurance that the New Directors and the management team would together be effective in developing or growing the Group's business. Please refer to the Circular for further details on the New Directors.

The ability of the Group to grow revenues and profits depends significantly on the Group's success in attracting and retaining highly skilled employees. Competition for such employees is intense, which may result in an increase in labour costs.

The cost of providing the Group's services, including the extent to which the Group utilises its workforce, affects its profitability. During periods of low activity in the industries it serves, the Group may have to reduce the size of its labour force to offset declining revenue or employees may choose to leave in order to secure more stable employment. There may also be other circumstances, which may cause the Group to lose its skilled employees, the absence of which may cause the Group to experience quality, efficiency and deliverability issues in its operations, or delay its response to an upturn in the market. During periods of increasing activity in its industry, the Group's ability to expand its operations depends on its ability to increase the size of its skilled labour force in a timely manner. From time to time, it may be difficult to attract and retain qualified individuals with the expertise, and in the timeframe, demanded by the Group's customers, or to replace such personnel when needed in a timely manner. In addition, during those periods, the demand for skilled workers is high, the supply is limited, and the cost to attract and retain qualified personnel increases. Furthermore, a significant increase in the wages paid by competing employers could result in a reduction of the Group's skilled labour force, increases in the wage rates that the Group must pay, or both. In addition, external factors including the energy transition and evolving technology require, among others, reskilling of the Group's workforce. The occurrence of any such events may impact the Group's ability to respond to customers' demands in a timely manner which may in turn

RISK FACTORS

have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects. Failure to hire and retain a qualified, capable management team and skilled employees could have a material adverse effect on the Group's cash flows, business, financial condition, results of operations and/or prospects.

In addition, in the event that any of the Group's key personnel retire or otherwise leave, the Group will need to successfully implement its succession plans, which require dedicating considerable time and resources toward identifying and integrating new personnel into leadership roles and other key positions. If the Group cannot attract and retain qualified personnel or effectively implement appropriate succession plans, it could have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

Project sites are inherently dangerous workplaces. If the Group, the owner, or others working at the project site fail to maintain safe work sites, the Group could be exposed to financial losses and reputational harm as well as civil and criminal liabilities.

Project sites may put the Group's employees, subcontractors and others in close proximity with large pieces of mechanised equipment, moving vehicles, work at heights or in confined spaces, chemical and manufacturing processes and highly regulated materials, in a challenging environment and often in geographically remote locations. If the Group, its customers or others responsible at such sites, fail to implement such health and safety procedures or if the procedures implemented are ineffective, or if others working at the site fail to implement and follow appropriate health and safety procedures, the Group's employees, subcontractors and others may become injured, disabled or even lose their lives, the completion or commencement of its projects may be suspended or delayed and the Group may be exposed to litigation or investigations. For example, failure to apply safe procedures and practices could result in loss of life which would require part or all of the site to be shut down for an undefined period of time to allow regulator inspections, investigations and have flow on potential for prosecution. Unsafe work sites also have the potential to increase employee turnover, increase the cost of a project to the Group and raise its operating and insurance costs. Any of the foregoing could result in financial losses or reputational harm, which could have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

Although the Group has implemented systems and controls to uphold the highest safety standards, there is no assurance that the health, safety and environmental work procedures implemented by the Group would be infallible. The Group cannot guarantee that there will be no injuries or loss of life to its personnel or that there will be no damage to or loss of the Group's work, equipment or supplies.

The Group's safety record is critical to its business, reputation and prospects, and all of the Group's customers require that the Group meets certain safety criteria to be eligible to bid for contracts. If the Group fails to maintain adequate safety standards, there could be a loss of projects or customers, which could in turn have a material adverse effect on the Group's business, financial condition, results of operations and/or prospects.

The Group is dependent on third-party suppliers and subcontractors to complete its contracts.

The Group may from time to time, depending on the needs of a project, hire third-party subcontractors to perform certain work under its contracts. The Group also relies on third-party equipment manufacturers or suppliers to provide the raw materials and/or equipment and machinery used for its projects. The Group is also subject to price fluctuations of such goods (raw materials and/or equipment and machinery) and services required for its business. There is no assurance that the Group's suppliers will continue to provide goods and services at prices acceptable to the Group.

In the event that the Group is not able to hire qualified subcontractors or source qualified equipment manufacturers or suppliers in a timely manner or on commercially acceptable terms or at all, the Group's ability to successfully complete a project could be impaired. If the Group is not able to locate qualified third-party subcontractors or the amount it is required to pay for subcontractors or equipment and supplies exceeds what it has initially estimated, particularly in the case of lump sum or fixed price contracts, the Group may experience cost overrun and may not be able to achieve the revenues expected under such contracts and in some circumstances the Group may suffer losses on such contracts.

RISK FACTORS

There is no assurance that the quality of work or products of the Group's subcontractors or suppliers can meet the requirements of the Group and its customers. The Group may not be able to monitor the performance of the subcontractors as directly as its own direct labour. Therefore, the engagement of subcontractors or suppliers exposes the Group to the risks associated with non-performance, late performance or substandard performance of its subcontractors or suppliers. If a subcontractor, supplier or manufacturer fails to provide services or equipment as required under a contract for any reason, the Group may be required to source these services, equipment or supplies from other third parties or sources which may be on less favourable terms or on a delayed basis, which could adversely impact profitability and the Group's ability to meet its project deadlines. In addition, in the instances where the Group relies on a single contracted supplier or subcontractor or a small number of suppliers or subcontractors, if a supplier or subcontractor were to fail, there can be no assurance that the Group could locate a suitable alternative source on a timely basis or at the costs it had anticipated, or at all.

Any delay, failure to meet contractual obligations, or other event beyond the Group's control or which the Group would not have been able to foresee, that is attributable to a subcontractor or supplier, could lead to delays in the overall progress of a project and/or generate significant costs as the Group may be obligated to assume its defaulting subcontractor's or supplier's obligations or compensate its customers. Even if the Group is entitled to make a claim for these extra costs against the defaulting supplier or subcontractor, it may be unable to recover all or part of these costs and this could materially adversely affect its business, financial condition, results of operations and/or prospects.

In addition, during times of economic uncertainty or a downturn in the general economic environment, third-party subcontractors, suppliers or manufacturers may find it challenging to obtain sufficient financing to fund their operations. The inability to obtain financing could adversely affect such third-party subcontractors', suppliers' or manufacturers' ability to provide materials, equipment or services to the Group which could have a material adverse impact on its business, financial condition, and results of operations.

While the Group has a list of requirements which its third-party subcontractors, suppliers or manufacturers are required to adhere with, a failure by such third-party subcontractor, supplier or manufacturer to comply with applicable laws, regulations or customers' requirements could negatively impact the Group's business and may result in fines, penalties or suspension, which could have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

The Group is subject to counterparty risk.

The Group is subject to counterparty risk as it routinely enters into contracts with counterparties including vendors, suppliers and subcontractors that may be negatively impacted by events in the credit markets. For example, if such counterparties are unable to perform their obligations to the Group or its customers, the Group may be required to provide additional services or make alternative arrangements on less favourable terms with other parties to ensure adequate performance and delivery of services to its customers. These circumstances may also lead to disputes or litigation with the Group's customers, which could have a material adverse effect on the Group's reputation, business, financial condition, results of operations and/or prospects.

The Group's customers, suppliers and subcontractors may depend on access to commercial financing and capital markets to fund their operations. Disruptions of the credit or capital markets generally could adversely affect the customers' ability to finance projects and could result in contract cancellations or suspensions, project delays and payment delays or defaults by the customers. In addition, the customers may be unable to fund new projects, may choose to make fewer capital expenditures or otherwise slow their spending on the Group's services or to seek contract terms more favourable to them. In addition, any financial difficulties suffered by the subcontractors or suppliers could increase the Group's cost or adversely impact project schedules. These disruptions could materially impact the Group's backlog and have a material adverse impact on its business, financial condition, results of operations and/or prospects.

RISK FACTORS

In addition, the Group typically invoices its customers for its services in arrears and are, therefore, subject to the customers delaying or failing to pay the Group's invoices after the Group has already committed resources to their projects. In weak economic environments, the Group may experience increased delays and failures due to, among other reasons, the customers' unwillingness to pay for alleged poor performance or to preserve their own working capital. In addition, customers may request extension of the payment terms otherwise agreed to under the contracts. Delays in payments from customers will impact the Group's cash flows and liquidity. If a customer fails to pay the Group's invoices on a timely basis or defaults in making its payments on a project in which the Group has devoted significant resources, there could be a material adverse effect on the Group's cash flows, liquidity, business, financial condition, results of operations and/or prospects.

The Group's cash flows may deteriorate due to potential mismatch in time between receipt of progress payments from customers and payments to employees, subcontractors and suppliers.

The Group incurs numerous expenses in the course of the Group's business, including employee salaries, the costs of raw materials, equipment and machinery from suppliers and the costs of engaging subcontractors. As such, the Group may record material cash outflow in the event that it takes up too many substantial projects during a particular period of time.

The Group relies on cash inflow from its customers to meet its payment obligations to its employees, suppliers and subcontractors. The Group's cash inflow is dependent on prompt settlement of progress payments, and timely release of monies by its customers. Please refer to "***Risk Factors – Risks Relating to the Group's Business – The Group is subject to counterparty risk.***". Even if the Group's customers do not settle such payments on time and in full, there can be no assurance that the Group would not experience any significant cash flow mismatch. While the Group has implemented systems and controls for cash flow management, there can be no assurance that such systems and controls will be effective. Further, the timing of or failure to obtain contracts, delays in awards of contracts, cancellations of contracts or delays in completion of contracts, could result in significant periodic fluctuations in the Group's cash flows. If there were any significant and substantial cash flow mismatch, the Group may have to raise funds by resorting to internal resources and/or banking facilities in order to meet its payment obligations in full and on time. Please also refer to "***Risk Factors – Risks Relating to the Group's Business – The Group may experience limited availability of funds.***".

The Group faces competition and impacts associated with new technology in the industry it operates. In the event that the Group is unable to compete effectively, it could lose market share and its business and results of operations could be materially and adversely affected.

The Group faces competition in the industry it operates. The Group serves markets which are highly competitive and in which a number of regional, national and multinational companies operate. The Group competes based on a number of factors, including but not limited to, service offerings, project execution, customer service and price. Competition can place downward pressure on the prices the Group proposes under its contracts and affect profit margins, and in some cases, may require the Group to accept contractual terms and conditions which are not customary (or in some cases, onerous), thereby increasing the risk that, among others, the Group may experience losses on such contracts or not realise planned profit margins. In addition, advancement of technology is impacting the way work is delivered and expectations of the Group's customers. In some instances, customers expect engineering work to be automated and delivered faster and at lower cost thereby placing pressure on schedule and margins. There can be no assurance that the Group will continue to be able to compete effectively with the services or prices offered by its competitors. If the Group is not able to compete effectively, it could lose market share to its competitors which may, in turn, materially and adversely affect the Group's business, financial condition, results of operations and/or prospects.

RISK FACTORS

The Group may from time to time be involved in litigation proceedings, arbitration, potential liability claims and contract disputes which may have a material impact on the Group's financial condition, results of operations and/or reputation.

The Group may be subject to a variety of legal proceedings, arbitration, liability claims or contract disputes in the normal course of its business and in the jurisdiction in which it operates. The Group is an integrated service provider of mechanical engineering, plant fabrication and installation as well as plant maintenance to customers in the oil and gas, petrochemical and pharmaceutical industries, where a failure in the Group's services may result in substantial injury or damage to persons or property and therefore potentially exposing the Group to substantial claims and litigation. Such claims or litigation could relate to, among others, personal injury, loss of life, business interruption, substandard discharge of professional responsibility, property damage, hazardous substances, pollution and environmental damage and may be brought by the Group's customers, third parties or us. In addition, the Group may also be exposed to labour and employment claims in the normal course of business. Such claims can relate to allegations of harassment and discrimination, pay equality, denial of certain benefits, wage violations, whistle-blower protections and other employment protections, and may be pursued on an individual or class action basis depending on applicable laws and regulations.

While the Group maintains insurance coverage for various aspects of its business and operations, there is no assurance that any such insurance coverage would be adequate. In proceedings where it is determined that the Group has liability, the Group may not be covered by insurance or, if covered, the dollar amount of these liabilities may exceed the Group's policy limits or the insurance coverage may be subject to certain exclusions or the insurance companies may attempt to deny claims for which the Group seeks coverage. Please also refer to ***"Risk Factors – Risks Relating to the Group's Business – Unavailability or cancellation of third-party insurance coverage would increase the Group's overall risk exposure as well as disrupt the management of its business operations."*** In certain circumstances, the Group may be covered by indemnification agreements which may at times be difficult to enforce. Even if enforceable, it may be difficult to recover under the indemnification agreements if the party agreeing to indemnify does not have the ability to financially support the indemnity. There is no assurance that the Group would be able to recover under the indemnity agreements in full or at all.

Litigation and regulatory proceedings are subject to inherent uncertainties, and unfavourable rulings could occur, including for monetary damages. If the Group were to receive an unfavourable ruling in a matter, the Group may be liable to pay in respect of such legal proceedings which are not covered by insurance, and in such cases, the Group's business, financial condition, results of operations and/or prospects could be materially and adversely affected.

In addition, the Group's management's attention and internal resources may be significantly diverted to handle such disputes, litigations and other legal proceedings, which can be both costly and time consuming. Any such litigation or claims, particularly if they turn into high profile cases and become widely reported in the media or within the industry, may also harm the Group's reputation. Regardless of the merits of the case, these disputes may damage the Group's relationship with the relevant customers, suppliers, subcontractors or workers, which may affect its reputation in the industry, thereby adversely affect the Group's business, financial condition, results of operations and/or prospects.

The Group's failure to recover adequately on claims against customers, subcontractors or suppliers for payment or performance could have a material adverse effect on its business, financial conditions and results of operations.

The Group may during the course of business bring claims against its customers for additional costs exceeding the contract prices or for amounts not included in the original contract price. Similarly, the Group may present change orders and claims to its subcontractors and suppliers. If the Group fails to properly provide notice or document the nature of change orders or claims in respect of its subcontractors and suppliers or are otherwise unsuccessful in negotiating a reasonable settlement or outcome with its customers, subcontractors and suppliers, the Group could incur reduced profits, cost overruns, damage to its reputation and in some cases a loss on the project. These types of claims may

RISK FACTORS

arise due to matters such as customer-caused delays or changes from the initial project scope, which may directly or indirectly result in additional costs. From time to time, such claims are the subject of lengthy and expensive arbitration or litigation proceedings, and it is often difficult to accurately predict with certainty when those claims will be fully resolved, if at all. When these types of events occur, and unresolved claims are pending, the Group may be required to invest significant capital in projects to cover cost overruns pending the resolution of the claims. A failure to recover, promptly or otherwise, on such claims, could have a material adverse impact on the Group's reputation, business, financial condition, results of operations and/or prospects.

The contracts in the Group's backlog are subject to unexpected revisions, cancellations, deferments or suspension and, therefore, may not be a reliable indicator of the Group's future revenue or earnings.

The Group's backlog represents the total dollar amount of revenue it expects to record in the future as a result of performing work under contracts that have been awarded to the Group and for which there is generally an executed contract or commitment, but which can be subject to revisions, cancellations, deferments or suspension.

There is no assurance that the revenue projected in the Group's backlog will be realised or profitable or will not be subject to revisions, suspensions, delays, deferments or cancellations. The contracts in the Group's backlog are generally based on management estimates and project cancellations, scope adjustments or deferrals, or foreign currency fluctuations may occur with respect to the contracts reflected in the Group's backlog and any such occurrence could reduce the dollar amount of the Group's backlog and the revenue and profits that the Group actually earn; or may cause the rate at which the Group performs on its backlog to decrease. Certain of the Group's contracts have termination for convenience provisions which allow customers to cancel projects already awarded to the Group.

In addition, projects may remain in the Group's backlog for an extended period of time. During periods of economic slowdown globally or within a particular jurisdiction or region, or decreases and/or instability in commodity prices, the risks of backlog projects being suspended, delayed or cancelled generally increases. Further, poor project or contract performance could also impact the Group's backlog and profits. While the Group has implemented systems to manage its projects efficiently, any of the occurrences above may have a material adverse impact on the Group's cash flows, business, financial condition, results of operations and/or prospects.

Disruptions in the political, regulatory, economic and social conditions of the countries in which the Group operates could result in project disruptions, increased cost and potential losses which may in turn materially and adversely affect the Group's business, financial condition or results of operations.

The Group's business is subject to the economic and political conditions of the countries it operates and may be affected by changes in such conditions which are beyond its control.

The Group's operations are subject to a variety of risks, including:

- recessions, inflations and other economic crises linked to specific foreign economies and the impact on the Group's costs of doing business in those countries;
- difficulties in staffing and managing foreign operations, including logistical and communication challenges;
- unexpected changes in foreign government policies, legal and regulatory requirements;
- potential non-compliance with a wide variety of laws and regulations, including anti-corruption, export control and anti-boycott laws, or potential non-compliance with regulations and evolving industry standards regarding data use and security;

RISK FACTORS

- lack of developed legal systems in some jurisdictions to enforce contractual rights;
- expropriation and nationalisation of the Group's assets in a foreign country;
- supply disruptions in key oil producing countries;
- the ability of the Organization of the Petroleum Exporting Countries to set and maintain production levels and pricing;
- renegotiation or nullification of the Group's existing contracts;
- the adoption of new, and the expansion of existing, trade or other restrictions;
- embargoes, duties, tariffs or other trade restrictions, including sanctions;
- changes in labour conditions and policies;
- social, political, and economic instability, acts of war, civil unrest, severe communicable disease, public health issues, force majeure, cyber-terrorism and terrorism;
- natural or man-made disasters;
- the ability to finance efficiently the Group's foreign operations;
- changes to tax policy;
- interest rate fluctuations;
- currency exchange rate fluctuations; and
- limitations on the ability to repatriate foreign earnings.

The lack of a well-developed legal system in some of the countries where the Group operates may make it difficult to enforce the Group's contractual rights or to defend itself against claims made by others.

Continuing disruptions or instability in the global economy and in the global markets may, therefore have a material adverse effect on the Group's cash flows, business, financial condition, results of operations and/or prospects. Please also refer to ***"Risk Factors – Risks Relating to the Group's Business – The markets and customers for which the Group works have been impacted by uncertainties and instability in global market conditions which have led to project and investment delays and supply chain impacts."***

In addition, military action or civil unrest could impact the supply or pricing of oil or other commodities in which the Group has significant exposure, disrupt the Group's operations in such regions and elsewhere, and increase its security costs. The Group's level of exposure to these risks will vary on each project, depending on the location of the project and the particular stage of each such project. For example, the Group's risk exposure with respect to a project in an early development phase, such as engineering, will generally be less than its risk exposure on a project that is in the construction phase. To the extent that the Group's business is affected by unexpected and adverse foreign economic and political conditions and risks, the Group may experience project disruptions and losses. Project disruptions and losses may significantly reduce the continued success of the Group's operations as well as materially and adversely affect the Group's business, financial condition, results of operations and/or prospects.

RISK FACTORS

The Group is required to comply with applicable laws and regulations in the jurisdictions it operates, violations of which could have a material adverse effect on its business, financial condition, results of operations or cash flows. New or changing legal and regulatory requirements could adversely affect the Group's business, financial condition and results of operations.

The Group's operations are governed by various laws and regulations in the jurisdictions which it operates relating to matters such as environmental protection, climate change, health and safety, labour and employment, import/export controls, currency exchange, bribery and corruption, sanctions and taxation. These laws and regulations are complex, frequently change, and tend to become more stringent over time. In the event the scope of these laws and regulations expands in the future, the incremental cost of compliance could adversely impact the Group's financial condition, results of operations or cash flows.

The Group's business and results of operations could be affected by the passage of climate change, environmental, infrastructure, trade and other laws, policies and regulations. For example, growing concerns about climate change may result in the imposition of additional environmental regulations. Legislation, international protocols or treaties, regulation or restrictions on emissions could affect the Group's customers, including those who are involved in the exploration, production or refining of fossil fuels, emit greenhouse gases through the combustion of fossil fuels, or emit greenhouse gases through the manufacture, utilisation or production of materials or goods. Such legislation or restrictions could increase the costs of projects for the Group and its customers or, in some cases, prevent a project from going forward, thereby potentially reducing the need for the Group's services which could in turn have a material adverse effect on the Group's operations, financial condition and results of operations. For example, oil and natural gas exploration and production may decline as a result of such laws, regulations, and proposals and as a consequence demand for the Group's services may also decline. On the other hand, changes in legislation or restrictions may generate new work to modify or upgrade existing customer assets, or to design new facilities, plants and infrastructure that meet clean energy or other new requirements. It is not possible for the Group to predict the potential consequences of any such changes in legislation or restrictions.

In addition, the implementation of trade barriers, countervailing duties, or border taxes, or the addition, relaxation or repeal of laws, policies and regulations regarding the industries and sectors in which the Group operates could result in a decline in demand for its services, or may affect the manner in which the Group performs its services. Furthermore, changes to existing trade agreements may impact the Group's business operations. The Group cannot predict when or whether any of these various legislative and regulatory proposals may become law or what their effect will be on the Group and its customers.

While the Group has implemented internal controls designed to minimise and detect potential violations of laws and regulations in a timely manner, there is no assurance that such policies and procedures will be followed at all times or will effectively detect and prevent violations of the applicable laws by one or more of its employees, consultants, agents or partners. The occurrence of any such violations could subject the Group to penalties and material adverse impact on its cash flows, business, financial condition, results of operations and/or prospects.

Any cancellation, suspension, revocation or non-renewal of any of the Group's licenses or permits may materially and adversely affect the Group's operations, financial performance and financial condition.

The Group is required to obtain various licences and permits to conduct its business operations. The grant and renewal of such licences and permits are generally subject to conditions stipulated by the relevant governmental authorities in the licences and permits and/or relevant laws or regulations under which such licences and permits are issued. While the Group has not encountered any difficulties in obtaining or renewing its licenses to-date, there is no assurance that such licences, permits, registrations and certifications can be maintained or obtained or renewed in a timely manner or at all. The loss of any such licences, permits, registrations and certificates necessary for the Group's operations may have a material adverse effect on the Group's reputation, ability to obtain future contracts, business, financial condition, results of operations and/or prospects.

RISK FACTORS

Unavailability or cancellation of third-party insurance coverage would increase the Group's overall risk exposure as well as disrupt the management of its business operations.

The Group maintains insurance coverage from third-party insurers as part of its overall risk management strategy and because some of its contracts require the Group to maintain specific insurance coverage limits. Not all of the risks which the Group is subject are covered by such insurance and even if covered by such insurance policies, claims under such insurance policies may not be honoured fully or on time, or the insurance coverage may not be sufficient to cover the full extent of losses or damage. There are also certain types of risks (such as from wars, acts of terrorism or acts of God) which are either uninsurable or not economically insurable. To the extent that the Group suffers loss or damage that is not covered by insurance or exceeds the limit of the insurance coverage, any such losses or claims would have to be paid out of the Group's own funds which may in turn materially and adversely affect the Group's cash flow, business, financial condition, results of operations and/or prospects. In addition, if any of the Group's third-party insurers fail, suddenly cancel its coverage or otherwise are unable to provide the Group with adequate insurance coverage, then the Group's overall risk exposure and operational expenses would increase, and the management of its business operations may be disrupted. In addition, there can be no assurance that any of the existing insurance coverage would be renewable upon the expiration or that future coverage will be on affordable at the required limits.

Past and future environmental, health and safety regulations could impose significant additional cost on the Group that could reduce the Group's profits and materially and adversely affect the Group's business, financial condition and results of operations.

The Group is subject to a variety of environmental laws and health and safety regulations governing, among others, accidental discharges to air and water; the handling, storage and disposal of hazardous or waste materials; the remediation of contamination associated with the release of hazardous substances; and workplace health and safety. Failure to comply with these laws and regulations may result in the assessment of administrative, civil, and criminal penalties, the imposition of remedial obligations, the issuance of orders enjoining the Group's operations, or other claims and complaints. In addition, the Group's insurance (to the extent insurable) and compliance costs may increase as a result of changes in such environmental, health and safety laws and regulations.

While the Group strives to be in compliance with all applicable laws and regulations, it is impossible to reliably predict the full nature and effect of judicial, legislative or regulatory developments in all jurisdictions in which the Group operates, that relate to applicable health and safety regulations and environmental protection regulations. The applicable regulations, as well as the length of time available to comply with those regulations, continue to develop and change. The cost of complying with rulings and regulations, satisfying any environmental remediation requirements for which the Group is found responsible, or satisfying claims or judgments alleging personal injury, property damage or natural resource damages as a result of exposure to, or contamination by, hazardous materials could be substantial, may not be covered by insurance, could reduce the Group's profits, and which could in turn materially and adversely impact the Group's business, financial condition, results of operations and/or prospects.

Currency exchange rate fluctuations could adversely affect the Group's results of operations.

The Company reports its financial results in Singapore dollars. The Group's business operations involve various currencies in addition to Singapore dollars, primarily U.S. Dollar, Malaysian Ringgit and Chinese *Renminbi*. The Group's financial position is therefore subject to fluctuations of the Singapore dollars as the functional currency of the Company against various other currencies.

The Group may at times be exposed to the effects of foreign exchange translation with respect to certain of its subsidiaries or investment portfolio that record their results of operations in currencies other than Singapore dollars. Such foreign currency contributions to the Group's financial statements are affected by the exchange rate between their reporting currency and Singapore dollars.

RISK FACTORS

Generally, the Group is exposed to currency risk arising from, among others, receivables, liabilities, cash and cash equivalents, marketable securities and pending transactions denominated in currencies other than the functional currency of the Group company concerned in each instance. The Group may also incur expenses and liabilities (including debt financing) in such currencies. While the Group seeks to manage its currency exposure to the net assets of the Group's operations, in the event that the Group is unable to adequately manage its currency exposure, volatile exchange rate fluctuations could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Damage to the Group's reputation could in turn cause damage to the Group's business and its ability to retain and acquire work, attract and retain employees, secure lines of credit and gain access to capital.

Maintaining the Group's reputation is critical to attracting new customers and maintaining its existing customer base and ensuring its other business relationships are maintained. If the Group fails to address issues that may give rise to reputational risk, it could significantly harm its business. These issues may include, but are not limited to, any of the risk factors discussed in this Offer Information Statement, including compliance with laws and regulations, project execution risk, cyber security and health and safety. If the Group's reputation is harmed, it could suffer a number of adverse consequences, including but not limited to:

- reduced demand for the Group's services;
- lack of investor confidence;
- less favourable credit rating;
- the inability to attract and retain qualified employees;
- a loss or reduction in scope of current project contracts and fewer acquisitions of new projects;
- less favourable contract terms;
- increased litigation and costs; and
- heightened regulatory scrutiny.

These and other consequences resulting from damage to the Group's reputation could have a material adverse impact on the Group's business, financial condition, results of operations, cash flows and/or prospects.

The Group is exposed to various information technology, cyber security and data risks.

The Group's business uses a number of information technology systems, including information technology infrastructure such as servers, storage, databases and telecommunications infrastructure as well as software applications and control and processing systems. The Group relies on computer and technology systems for functions such as communication, site operations and coordination, planning and procurement activities.

While the Group has in place security measures and technology to protect the Group's and the clients' proprietary and/or classified information, such systems may fail, or be subject to disruption as a result of external threats or system errors, which may have an adverse effect on the Group's operations and profitability. The Group's systems could also be subject to data integrity issues or suffer security breaches. Unauthorised access to, or breach or failure of, the Group's digital infrastructure due to cyber-attacks, email phishing, negligence, human error or other third-party actions, could disrupt its operations and result in the loss or misuse of data or sensitive information. Any cyber-attack or other unauthorised breach of the Group's systems, particularly through targeted 'phishing' attempts, computer

RISK FACTORS

viruses, malicious code, ransomware or other system disruptions could result in significant disruption in operations at one or more of the Group's project sites, affecting production and potentially the Group's ability to service its customers. Loss or misuse of data may expose the Group to litigation, claims, fines and penalties.

In addition, new laws and regulations governing data privacy and unauthorised disclosure of confidential information pose increasingly complex compliance challenges and potentially elevate costs, and any failure to comply with these laws and regulations could result in significant penalties and legal liability.

Further, certain of the Group's systems are operated or maintained by third parties whom the Group does not have any control, and a failure of such third parties to effectively or efficiently perform the contracted services may cause disruption to the Group's operations, cause reputational damage, or both. Any matters affecting the Group's information technology or communications systems could have a material adverse impact on its reputation, business, financial condition, results of operations and/or prospects.

Employee, agent or partner misconduct or the Group's overall failure to comply with laws or regulations could weaken the Group's reputation which could in turn have a material adverse impact on its business, financial condition and results of operations.

Misconduct, fraud, non-compliance with applicable laws and regulations, or other improper activities by any of the Group's employees, agents or partners could have a significant negative impact on its business and reputation. Such misconduct could include the failure to comply with regulations prohibiting bribery and other corrupt practices, regulations regarding the pricing of labour, regulations pertaining to the internal controls over financial reporting, regulations pertaining to export control, environmental laws, employee wages, pay and benefits and any other applicable laws or regulations.

Although the Group has taken precautions and has implemented systems to prevent and detect these activities, the Group could still face unknown risks or losses in the event such precautions and systems are unable to prevent or detect such activities. The Group's failure to comply with applicable laws or regulations, or acts of misconduct, could subject it to fines and penalties, cancellation of contracts, which could weaken the Group's ability to secure contracts and result in reduced revenues and profits and could have a material adverse impact on the Group's business, financial condition, results of operations and/or prospects.

The Group may not successfully expand its business and implement its growth strategies.

Subject to obtaining any required approvals, the Group may from time to time expand its business to new industries or markets in which it has limited operating experience. Such expansion may require the Group to devote substantial resources to become familiar with, and monitor changes in, different operating environments so that it can succeed in such new business. The Group's ability to successfully grow its new business and implement its expansion strategy depends on a variety of factors, including its ability to identify suitable locations and projects, obtain required approvals from relevant regulatory authorities, obtain sufficient capital on acceptable terms in a timely manner, retain key personnel or hire new personnel and its ability to operate the business that will retain market share or key customers, some of which may be out of the Group's control. There is no assurance that the Group will be able to grow its business, implement its expansion strategies, manage or integrate any newly acquired operations with the Group's existing operations. In addition, the Group is facing an external environment of rapid change brought about by the energy transition, new technology and geopolitical challenges. Any failure by the Group to grow new business or implement its expansion strategies could have a material adverse effect on its business, financial condition, results of operations and/or prospects.

The Group may not successfully retain or renew its lease of the Tuas Properties.

The Tuas Properties which are currently used by the Group to conduct its operations in Singapore, is currently leased from JTC with certain terms and conditions (being the JTC Investment Criteria) to be fulfilled prior to extension of lease to be granted. The Group has no control over the decision of JTC to extend the lease and in the event that the lease of the property is not granted, the Group will have to source for, and relocate its operational premises which could affect and disrupt its business and operations.

RISK FACTORS

Historical financial information of the HSEL Group may not be indicative of the Group's future financial results.

The historical financial information of the HSEL Group may not be indicative of the future financial results of the Group (comprising the Company, HSEL and its subsidiaries). The historical financial information is not intended to represent or predict the results of operations of any future periods.

The Company was incorporated in Singapore on 2 January 2022 for the sole purpose of the Transfer Listing. Since its incorporation, the Company has not undertaken any business activities and has no assets or liabilities (other than for auditing, corporate secretarial and other administrative expenses incurred). Pursuant to the completion of the Transfer Listing, the Company is an investment holding company owning 100.0% of the issued and paid-up share capital of HSEL and the listed vehicle in place of HSEL. HSEL and its subsidiaries are the operational companies carrying out their respective businesses.

Accordingly, the Company's financial history did not cover the businesses of HSEL and its subsidiaries as at the Latest Practicable Date. Therefore, no consolidated financial statements of the Group are available.

In the interests of assisting investors in making an informed assessment, this Offer Information Statement includes selected audited consolidated financial information of the HSEL Group for FY2021, FY2022 and FY2023. Such selected financial information should be read together with the relevant annual reports, the consolidated audited accounts and consolidated financial statements of the relevant periods and related notes thereto, which are available on the website of the SGX-ST at <https://www.sgx.com/securities/company-announcements?pagesize=20&value=HIAP%20SENG%20INDUSTRIES%20LIMITED&type=company>.

As the Company was not in fact the holding company of HSEL and its subsidiaries for FY2021, FY2022 and FY2023, such financial information of the HSEL Group for the relevant periods may not be indicative of the actual consolidated results of operations, financial position and cash flows of the Group had the Company been the holding company of HSEL and its subsidiaries during the periods presented, or those that the Group will achieve in the future.

Furthermore, the Group's future financial results may change materially if its future growth does not follow the historical trends for various reasons, including factors beyond its control, such as the Group's ability to secure new contracts, control its costs and expenditure, project implementation, changes in economic environment, environmental rules and regulations and the competitive landscape in which the Group operates as well as the occurrence of any of the risks discussed in this section entitled "**Risk Factors**" of this Offer Information Statement. Investors should not place due reliance on such historical financial information.

Please also refer to paragraph 1 of the section entitled "**Disclosure Requirements Under the Sixteenth Schedule of the Securities and Futures (Offers of Investments) (Securities and Securities-Based Derivatives Contracts) Regulations 2018 – Part 5 – Operating and Financial Review and Prospects**" of this Offer Information Statement.

RISKS RELATING TO AN INVESTMENT IN THE RIGHTS, THE RIGHTS SHARES AND THE SHARES

An active trading market may not develop.

An active trading market in the Rights may not develop on SGX-ST during the trading period for such Rights. Even if an active trading market develops, because the trading price of the Rights depends on the trading price of the Shares, the trading price of the Rights may be volatile and subject to the same risks affecting the trading price of the Shares as noted elsewhere in this Offer Information Statement.

RISK FACTORS

Shareholders should also note that the Shares trade in board lots of 100 Shares. Following the Rights Issue, Shareholders who hold odd lots of the Shares and who wish to trade in odd lots on the SGX-ST should note that there is no assurance that they will be able to acquire such number of Shares to make up one board lot of 100 Shares or to dispose of their odd lots (whether in part or whole) on the SGX-ST. Further, Shareholders who hold odd lots of less than 100 Rights Shares may experience difficulty and/or have to bear disproportionate transaction costs in disposing of odd lots of their Shares.

Shareholders who do not own or are not able to accept their Rights will experience a dilution in their ownership of the Company.

If Shareholders do not or are not able to accept their Rights, their proportionate ownership of the Company will be reduced. They may also experience dilution in the value of their Shares. Even if a Shareholder sells his/her/its Rights, or such Rights are sold on his/her/its behalf, the consideration he/she/it receives may not be sufficient to compensate him/her/it fully for the dilution of his/her/its ownership in the Company as a result of the Rights Issue.

Investors may experience future dilution in the value of their Shares.

The allotment and issue of the Option Shares on exercise of the Options (if any) may have a dilutive effect on the shareholdings of other Shareholders.

In addition, the Company may need to raise additional funds in the future and if such additional funds are raised through the issuance by the Company of new Shares other than on a *pro rata* basis to existing Shareholders, the percentage ownership of existing Shareholders may be reduced and existing Shareholders may experience dilution in the value of their Shares.

The Issue Price is not an indication of the underlying value of the Shares. Further, the Rights Issue may cause the price of the Shares to fluctuate or decrease.

The Issue Price represents a discount of approximately (a) 72.9 per cent. to the VWAP of S\$0.02 for each Share based on the trades done on 26 November 2019, being the last full Market Day when the Shares were traded prior to HSEL's trading suspension on 28 November 2019; and (b) 69.0 per cent. to the theoretical ex-rights price of S\$0.01753² per Share.

The discount in the price of the Rights Shares, along with the number of Rights Shares, may result in an immediate decrease in the market value of the Shares. The Issue Price does not bear a direct relationship to the book value of the Company's assets, past operations, cash flow, earnings, financial condition or any other established criteria for value, and Shareholders should not consider the Issue Price to be any indication of the Shares' underlying value or of the future performance of the Company or the trading price of the Shares. Any such decrease in the market value may continue after the completion of the Rights Issue.

The market price for the Shares on the SGX-ST (including the Rights and the Rights Shares) could be subject to significant fluctuations. Any fluctuation may be due to the market's perception of the likelihood of completion of the Rights Issue and/or be in response to various factors some of which are beyond the Company's control. Examples of such factors include but are not limited to: (a) variation in its operating results; (b) changes in securities analysts' estimates of the Group's financial performance; (c) fluctuations in stock market prices and volume; (d) general changes in rules/regulations with regard to the industries that the Group operates in, including those that affect the demand for the Group's products and services; and (e) economic, stock and credit market conditions.

² Such theoretical ex-rights price is the theoretical market price of each Share on the completion of the allotment and issue of the (a) Subscription Shares and the Options pursuant to the Subscriber Transactions; (b) Settlement Shares pursuant to the Debt Restructuring; and (c) Rights Shares pursuant to the Rights Issue (on a Maximum Subscription Scenario), and is calculated based on the last traded price of S\$0.02 for each based on the trades done on 26 November 2019, being the last full Market Day when the Shares were traded prior to HSEL's trading suspension on 28 November 2019, and the number of Shares of 3,650,716,721 Shares following the completion of the Rights Issue (but assuming none of the Options are exercised).

RISK FACTORS

Any of these events could result in a decline in the market price of the Shares (including the Rights and the Rights Shares) during and after the Rights Issue. There is no assurance that the market price of the Rights Shares, upon or subsequent to the listing thereof and quotation therefor on the SGX-ST, will remain at or above the Issue Price, or that the Rights Shares can be disposed of at or above the Issue Price. Further, the discount, along with the number of Rights Shares, may result in a decrease in the trading price of the Shares and this decrease may continue after the completion of the Rights Issue.

Any future sale of Shares by the Substantial Shareholders and/or Directors in the public market can have a downward pressure on the price of the Shares.

Pursuant to the completion of the Subscriber Transactions, the Debt Restructuring and the Transfer Listing (but assuming the Rights Issue has not completed and that none of the Options are exercised), the Subscribers, Vibrant and Tian Yuan, will own 36.3% and 12.1% of the Enlarged Share Capital of the Company, respectively. Please refer to paragraph 8(e) of the section entitled “***Disclosure Requirements Under the Sixteenth Schedule of the Securities and Futures (Offers of Investments) (Securities and Securities-Based Derivatives Contracts) Regulations 2018 – Part 4 – Key Information Required for Offer of Securities or Securities-based Derivatives Contracts by way of Rights Issue***” of this Offer Information Statement for further details on the shareholding interests of the Substantial Shareholders and/or Directors.

The sale of a significant amount of Shares by the Substantial Shareholders and/or Directors in the public market, or the perception that such sales may occur could materially and adversely affect the market price of its Shares. These factors could also affect the Group’s ability to issue additional equity securities in the future.

ELIGIBILITY OF SHAREHOLDERS TO PARTICIPATE IN THE RIGHTS ISSUE

1. Entitled Shareholders

Entitled Shareholders are entitled to participate in the Rights Issue, access and download this Offer Information Statement from the SGX-ST's website at <https://www.sgx.com/securities/company-announcements?pagesize=20&value=HIAP%20SENG%20INDUSTRIES%20LIMITED&type=company> or the Company's website at <https://www.hiapseng.com/index.php>, and to receive the OIS Notification Letter, together with the ARE, the ARS or the PAL (as the case may be), at their respective Singapore addresses.

Entitled Depositors who do not receive the OIS Notification Letter, the ARE and/or the ARS may contact CDP, the Share Registrar or any stockbroking firm during the period from the date the Rights Issue commences up to the Closing Date. Entitled Scripholders who do not receive the OIS Notification Letter and/or the PAL may obtain them from the Share Registrar during the period from the date the Rights Issue commences up to the Closing Date.

Entitled Shareholders will be provisionally allotted Rights Shares under the Rights Issue on the basis of their shareholdings in HSEL as at the Record Date. Entitled Shareholders are at liberty to accept (in full or in part), decline, renounce or (in the case of Entitled Depositors only) trade their provisional allotments of Rights Shares during the provisional allotment trading period prescribed by the SGX-ST and are eligible to apply for Excess Rights Shares.

All fractional entitlements to the Rights Shares will be disregarded in arriving at the entitlements of the Entitled Shareholders and will, together with such Rights Shares that are not validly taken up by Entitled Shareholders or their respective renouncee(s) or Purchaser(s) and any Rights Shares that are not otherwise allotted for whatever reason in accordance with the terms and conditions contained in this Offer Information Statement, the ARE, the ARS, the PAL and (if applicable) the constitution, be aggregated and issued to satisfy applications, if any, for Excess Rights Shares, or disposed of or otherwise dealt with in such manner as the Directors may, in their absolute discretion, deem fit for the benefit of the Company. In the allotment of Excess Rights Shares, preference will be given to the rounding of odd lots and Directors and Substantial Shareholders who have control or influence over the Company in connection with the day-to-day affairs of the Company or the terms of the Rights Issue, or have representation (direct or through a nominee) on the Board, including the Undertaking Shareholder Entity, will rank last in priority for the rounding of odd lots and the allotment of Excess Rights Shares.

All dealings in and transactions of the provisional allotments of Rights Shares through the SGX-ST will be effected under the book-entry (scripless) settlement system. Accordingly, the PALs, which will be issued to Entitled Scripholders, will not be valid for delivery pursuant to trades done on the SGX-ST.

The procedures for, and the terms and conditions applicable to, acceptances, renunciation and/or sales of Rights and applications for Excess Rights Shares, including the different modes of acceptance or application and payment, are contained in **Appendices A to C** to this Offer Information Statement and in the ARE, the ARS and the PAL (as the case may be).

Notwithstanding the foregoing, investors should note that the offer and sale of, or exercise or acceptance of, or subscription for, Rights Shares to or by persons located or resident in jurisdictions other than Singapore may be restricted or prohibited by the laws of the relevant jurisdiction. Crediting of Rights to any Securities Account, the receipt of any Rights, or receipt of this Offer Information Statement, the OIS Notification Letter and/or any of its accompanying documents (including the ARE, the ARS and the PAL) will not constitute an offer or sale in those jurisdictions in which it will be illegal to make such offer or sale, or where such offer or sale will otherwise violate the securities laws of such jurisdictions or be restricted or prohibited. The Company reserves absolute discretion in determining whether any person may participate in the Rights Issue. Investors are cautioned to note the offering, selling and transfer restrictions set forth in the section entitled “*Offering, Selling and Transfer Restrictions*” of this Offer Information Statement.

2. Foreign Shareholders

This Offer Information Statement as well as the OIS Notification Letter and its accompanying documents (including the ARE, the ARS and the PAL), have not been and will not be lodged, registered or filed in any jurisdiction other than Singapore. The distribution of this Offer Information Statement and the distribution of the OIS Notification Letter and its accompanying documents (including the ARE, the ARS and the PAL), and the purchase, exercise of or subscription for the provisional allotments of Rights Shares and/or the Rights Shares by any persons who have registered addresses outside Singapore, or who are resident in, or citizens of countries other than Singapore, may be prohibited or restricted (either absolutely or subject to the relevant securities requirements, whether legal or administrative, being complied with) in certain jurisdictions under the relevant securities laws of those jurisdictions. For practical reasons and in order to avoid any violation of the securities legislation applicable in jurisdictions other than Singapore, the Rights Issue is only made in Singapore, and the Offer Information Statement and its accompanying documents (including the ARE, the ARS and the PAL) will not be despatched or, as the case may be, disseminated to Foreign Shareholders.

Accordingly, Foreign Shareholders will not be eligible to participate in the Rights Issue. No provisional allotment of Rights Shares will be made to Foreign Shareholders, and no purported acceptance of or application for Rights Shares by Foreign Shareholder will be valid. In addition, no arrangements will be made for the Rights which would otherwise have been provisionally allotted to Foreign Shareholders to be sold “nil-paid” on the Mainboard of the SGX-ST.

This Offer Information Statement, the OIS Notification Letter and its accompanying documents (including the ARE, the ARS and the PAL) relating to the Rights Issue will also not be despatched or disseminated to Foreign Purchasers. Such persons who wish to accept the provisional allotments of the Rights Shares credited to their Securities Accounts should make the necessary arrangements with their Depository Agents or stockbrokers in Singapore. It is also the responsibility of any person (including, without limitation, custodians, nominees and trustees) outside Singapore who wishes to take up his/her/its provisional allotment of Rights Shares and (if applicable), apply for Excess Rights Shares under the Rights Issue to satisfy himself/herself/itself as to the full observance of any relevant territory in connection therewith, including the obtaining of any governmental or other consents which may be required, the compliance with other necessary formalities and the payment of any issue, transfer or other taxes in such territories. The comments set out in this section are intended as a general guide only and any Foreign Shareholder who is in doubt as to his/her/its position should consult his/her/its professional advisers without delay.

The Company reserves the right to treat as invalid any of the ARE, the ARS or the PAL or decline to register such application or purported application which (a) appears to the Company or its agents to have been executed in any jurisdiction outside Singapore or which the Company believes may violate the applicable legislation of such jurisdiction; (b) provides an address outside Singapore for the receipt of the share certificate(s) for the Rights Shares or which requires the Company to despatch the share certificate(s) for the Rights Shares or which requires the Company to dispatch the share certificate(s) to an address in any jurisdiction outside Singapore; or (c) purports to exclude any deemed representation, warranty or confirmation.

The Company further reserves the right to reject any acceptances of the provisional allotments of Rights Shares and/or applications for Excess Rights Shares where it believes or has reason to believe that such acceptances and/or applications may violate the applicable legislation of any jurisdiction.

Foreign Shareholders who wish to be eligible to participate in the Rights Issue may provide a Singapore address by notifying in writing, as the case may be (a) CDP at 4 Shenton Way #02-01, SGX Centre 2, Singapore 068807; or (b) the Share Registrar, Boardroom Corporate & Advisory Services Pte Ltd, at 1 HarbourFront Avenue, Keppel Bay Tower, #14-07, Singapore 098632, no later than three (3) Market Days before the Record Date.

ELIGIBILITY OF SHAREHOLDERS TO PARTICIPATE IN THE RIGHTS ISSUE

No arrangements will be made for the Rights which would otherwise have been provisionally allotted to Foreign Shareholders to be sold “nil-paid” on the Mainboard of the SGX-ST.

The Rights Shares represented by such provisional allotments of Rights Shares will be issued to satisfy excess applications or dealt with in such manner as the Directors may, in their absolute discretion, deem fit in the interest of the Company and no Foreign Shareholder or person acting to the account or on behalf of any such persons shall have any claim whatsoever against the Company, CDP, the CPF Board, the Share Registrar and their respective officers in connection therewith.

For the avoidance of doubt, the Rights and Rights Shares are not intended to be offered or sold to persons in the U.S., except pursuant to an applicable exemption from or a transaction not subject to, the registration requirements of the Securities Act and in compliance with any applicable securities laws of any state or other jurisdiction of the United States. The Rights and the Rights Shares are being offered and sold only outside the United States in “offshore transactions” as defined in, and in reliance of Regulation S under the Securities Act. Please refer to the section entitled “*Offering, Selling and Transfer Restrictions*” of this Offer Information Statement for further details.

Notwithstanding anything herein, Shareholders and any other person having possession of the Offer Information Statement, the OIS Notification Letter and/or its accompanying documents (including the ARE, the ARS and the PAL) are advised to inform themselves of and to observe any legal requirements applicable thereto. No person in any territory outside Singapore receiving this Offer Information Statement, the OIS Notification Letter and/or its accompanying documents (including the ARE, the ARS and the PAL) may treat the same as an offer, invitation or solicitation to subscribe for any Rights Shares unless such offer, invitation or solicitation could lawfully be made without violating any other regulatory or legal requirements in such territory.

OFFERING, SELLING AND TRANSFER RESTRICTIONS

No action has been taken or will be taken to permit a public offering of the Rights or the Rights Shares to occur in any jurisdiction, or the possession, circulation, distribution or dissemination of this Offer Information Statement, the OIS Notification Letter, its accompanying documents (including the ARE, the ARS and the PAL) or any other material relating to the Company, the Rights or the Rights Shares in any jurisdiction where action for such purpose is required, except that this Offer Information Statement has been lodged with the MAS.

Accordingly, the Rights or the Rights Shares may not be offered or sold, directly or indirectly, and none of this Offer Information Statement, the OIS Notification Letter, its accompanying documents (including the ARE, the ARS and the PAL) or any offering materials or advertisements in connection with the Rights or the Rights Shares may be distributed, disseminated or published in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction. Investors are advised to consult their legal counsel prior to accepting any Rights, applying for Excess Rights Shares or making any offer, sale, resale, pledge or other transfer of the Rights or the Rights Shares.

THIS OFFER INFORMATION STATEMENT, THE OIS NOTIFICATION LETTER AND ITS ACCOMPANYING DOCUMENTS (INCLUDING THE ARE, THE ARS AND THE PAL) ARE BEING SUPPLIED TO YOU SOLELY FOR YOUR INFORMATION AND MAY NOT BE REPRODUCED, REDISTRIBUTED OR PASSED ON, DIRECTLY OR INDIRECTLY, TO ANY OTHER PERSON OR PUBLISHED, IN WHOLE OR IN PART, FOR ANY PURPOSE.

United States

The Rights and the Rights Shares have not been and will not be registered under the Securities Act or under any securities laws of any state or other jurisdiction of the United States, and may not be offered or sold in the United States except pursuant to an applicable exemption from, or a transaction not subject to, the registration requirements of the Securities Act. Accordingly, the Rights and the Rights Shares are being offered and sold only outside the United States in an “offshore transaction” in reliance upon Regulation S under the Securities Act. As used in this paragraph, the term “United States” has the meaning given to it by Regulation S under the Securities Act.

Each purchaser of Rights and/or Rights Shares outside the United States pursuant to Regulation S under the Securities Act and each subsequent purchaser of such shares in resales, by accepting delivery of this Offer Information Statement will be deemed to have represented, agreed and acknowledged that:

- (a) the purchaser is acquiring the Rights and/or Rights Shares in an “offshore transaction” meeting the requirements of Regulation S under the Securities Act;
- (b) the purchaser is aware that the Rights and/or Rights Shares have not been and will not be registered under the Securities Act and accordingly, are only being offered, sold or delivered in an “offshore transaction” in accordance with and in reliance on Regulation S under the Securities Act; and
- (c) the purchaser acknowledges that the Company, its respective affiliates and others will rely upon the truth and accuracy of the foregoing representations and agreements.

Terms used in this section entitled “**Offering, Selling and Transfer Restrictions – United States**” of this Offer Information Statement that are defined in Regulation S under the Securities Act are used herein as defined therein.

The written undertakings and confirmation referred to in paragraphs (b) to (e) above have been provided in the form as agreed with the SGX-ST.

The approval in-principle of the SGX-ST is not to be taken as an indication of the merits of the Rights Issue, the Rights, the Rights Shares the Company, its subsidiaries and/or the Shares.

Upon listing of and quotation for the Rights Shares on the Mainboard of the SGX-ST, the Rights Shares will be traded on the Mainboard of the SGX-ST under the book-entry (scripless) settlement system. All dealings in and transactions (including transfers) in relation to the Rights Shares effected through the SGX-ST and/or CDP shall be made in accordance with CDP's "*Terms and Conditions for Operation of Securities Account with The Central Depository (Pte) Limited*", as the same may be amended from time to time. Copies of the above are available from CDP.

2. Share Certificates and Arrangements for Scripless Trading

Entitled Scripholders and their renounees who wish to accept the Rights Shares provisionally allotted to them and (if applicable) apply for Excess Rights Shares, and who wish to trade the Rights Shares issued to them on the SGX-ST under the book-entry (scripless) settlement system, must open and maintain Securities Accounts with CDP in their own names if they do not already maintain such Securities Accounts in order that the number of Rights Shares and, if applicable, the Excess Rights Shares that may be allotted to them may be credited by CDP into their Securities Accounts.

Entitled Scripholders and their renounees who wish to accept their Rights Shares provisionally allotted to them and (if applicable) apply for Excess Rights Shares and have their Rights Shares credited into their Securities Accounts must provide their Securities Account numbers and/or NRIC/passport numbers (in full) (for individuals) or registration numbers (for corporations) in the relevant forms comprised in the PAL. Entitled Scripholders and their renounees who fail to provide their Securities Account numbers and/or NRIC/passport numbers (in full) (for individuals) or registration numbers (for corporations) or who have given incorrect or invalid Securities Account numbers and/or NRIC/passport numbers (for individuals) or registration numbers (for corporations) or whose particulars provided in the forms comprised in the PAL differ from those particulars in their Securities Accounts currently maintained with CDP, will be issued physical share certificates in

their own names for the Rights Shares allotted to them and if applicable, the Excess Rights Shares allotted to them. Such physical share certificates, if issued, will not be valid for delivery pursuant to trades done on the SGX-ST under the book-entry (scripless) settlement system, although they will continue to be *prima facie* evidence of legal title. If an Entitled Scripholder's address stated in the PAL is different from his/her/its address registered with CDP, he/she/he must inform CDP of his/her/its updated address promptly, failing which the notification letter on successful allotment and other correspondence will be sent to his/her/its address last registered with CDP.

A holder of physical share certificate(s) or an Entitled Scripholder who has not deposited his/her/its share certificate(s) with CDP but wishes to trade on the SGX-ST must deposit his/her/its existing physical share certificate(s) with CDP, together with the duly executed instrument(s) of transfer (including any applicable fee) in favour of CDP, and have his/her/its Securities Account credited with the number of Rights Shares and/or existing Shares, as the case may be, before he/she/it can effect the desired trade.

3. Trading of Odd Lots

For the purposes of trading on the Mainboard of the SGX-ST, each board lot of Shares will comprise 100 Shares. Shareholders who hold odd lots of Shares (that is, lots other than board lots of 100 Shares) are able to trade odd lots of Shares in board lots of one Share on the unit share market. Shareholders who hold odd lots of Shares may have difficulty and/or have to bear disproportionate transaction costs in realising the fair market price of such Shares.

PART 5 – OPERATING AND FINANCIAL REVIEW AND PROSPECTS

Operating Results

1. Provide selected data from:

- (a) the audited income statement of the relevant entity or, if the relevant entity is the holding company or holding entity of a group, the audited consolidated income statement of the relevant entity or the audited combined income statement of the group, for each financial year (being one of the 3 most recent completed financial years) for which that statement has been published; and**
- (b) any interim income statement of the relevant entity or, if the relevant entity is the holding company or holding entity of a group, any interim consolidated income statement of the relevant entity or interim combined income statement of the group, for any subsequent period for which that statement has been published.**

The Company was incorporated in Singapore on 2 January 2022 for the sole purpose of the Transfer Listing. Since its incorporation, the Company has not undertaken any business activities and has no assets or liabilities (other than for auditing, corporate secretarial and other administrative expenses incurred). On the completion of the Transfer Listing, the Company became an investment holding company owning 100.0% of the issued and paid-up share capital of HSEL and the listed vehicle in place of HSEL. HSEL and its subsidiaries are the operational companies carrying out their respective businesses.

Accordingly, the Company's financial history did not cover the businesses of HSEL and its subsidiaries as at the Latest Practicable Date. Therefore, no consolidated financial statements of the Group for the three most recent completed financial years are available.

In the interests of assisting investors in making an informed assessment, this Part includes selected audited consolidated financial information of the HSEL Group for FY2021, FY2022 and FY2023. Such selected financial information should be read together with the relevant annual reports, the consolidated audited accounts and consolidated financial statements of the relevant periods and related notes thereto, which are available on the website of the SGX-ST at <https://www.sgx.com/securities/company-announcements?pagesize=20&value=HIAP%20SENG%20INDUSTRIES%20LIMITED&type=company>.

As the Company was not in fact the holding company of HSEL and its subsidiaries for FY2021, FY2022 and FY2023, such financial information of the HSEL Group for the relevant periods may not be indicative of the actual consolidated results of operations, financial position and cash flows of the Group had the Company been the holding company of HSEL and its subsidiaries during the periods presented, or those that it will achieve in the future. Please also refer to the section entitled ***“Risk Factors – Risks Relating to the Group’s Business – Historical financial information of the HSEL Group may not be indicative of the Group’s future results of operations.”*** of this Offer Information Statement.

 - (b) the audited financial statements for that year are unavailable,

the data mentioned in paragraph 1 of this Part in respect of the most recently completed financial year may be provided from such unaudited financial statements, if the directors or equivalent persons of the relevant entity include a statement in the offer information statement that to the best of their knowledge, they are not aware of any reason which could cause the unaudited financial statements to be significantly different from the audited financial statements for the most recently completed financial year.

Not applicable. The audited financial statements for the most recently completed financial year of the HSEL Group, being FY2023, are available. Please also refer to paragraph 1 of this Part above.

4. In respect of:

- (a) each financial year (being one of the 3 most recent completed financial years) for which financial statements have been published; and
- (b) any subsequent period for which interim financial statements have been published,

provide information regarding any significant factor, including any unusual or infrequent event or new development, which materially affected profit or loss before tax of the relevant entity or, if it is the holding company or holding entity of a group, of the group, and indicate the extent to which such profit or loss before tax of the relevant entity or the group, as the case may be, was so affected. Describe any other significant component of revenue or expenditure necessary to understand the profit or loss before tax for each of these financial periods.

FY2023 vs FY2022 review

The revenue of the HSEL Group for FY2023 was lower by S\$8.2 million from S\$26.8 million in FY2022 to S\$18.6 million, mainly due to the lower volume of shutdown activities carried out in FY2023. The decrease was offset with higher volume of maintenance services carried out in FY2023 which resulted in a lower gross profit margin reported for FY2023 of 16.5%.

The significant drop of S\$6.4 million in other (losses)/gains for FY2023 compared to prior period was largely due to the absence of one-off gain on disposal of property of S\$4.5 million, gain on disposal of subsidiaries of S\$0.6 million and recognition of an impairment loss on property, plant and equipment of S\$0.4 million in FY2023.

The administrative expenses of S\$5.8 million in FY2022 were offset with a government grant of S\$1.8 million. Excluding the government grant, administrative expenses for FY2022 would have totalled S\$7.6 million, compared to S\$5.4 million in FY2023. The drop in administration expenses in FY2023 was largely due to the disposal of subsidiaries in prior year and continued cost cutting measures undertaken by HSEL during the current financial year.

The finance costs decreased by S\$0.4 million in FY2023 as a result of the set off of the loan made by the bank in March 2022.

FY2022 v FY2021 review

The HSEL Group recorded revenue of S\$26.8 million in FY2022, a decrease of S\$2.6 million from S\$29.4 million in FY2021, mainly attributable to the scaling down of activities for subsidiaries in Thailand and UAE.

Despite the lower revenue, the HSEL Group recorded a gross profit of S\$5.9 million in FY2022 compared to a gross loss of S\$2.1 million in FY2021.

The increase in other gains-net of S\$1.2 million from S\$4.1 million in FY2021 to S\$5.3 million in FY2022 was mainly due to a higher disposal gain of subsidiaries of S\$0.6 million in FY2022 and a write back of an impairment of financial assets in FY2022 versus an impairment charge of S\$0.2 million on financial assets made in FY2021.

The administrative costs reduced to S\$5.8 million from S\$7.8 million in FY2021 mainly due to the scaling down of activities for the HSEL Group's Thailand subsidiary, the compression and process business segment and the United Arab Emirates (UAE) branch.

**DISCLOSURE REQUIREMENTS UNDER THE SIXTEENTH SCHEDULE OF
THE SECURITIES AND FUTURES (OFFERS OF INVESTMENTS) (SECURITIES AND
SECURITIES-BASED DERIVATIVES CONTRACTS) REGULATIONS 2018**

Finance cost during the year had decreased by S\$0.4 million as a result of partial repayment of loans made by HSEL during the financial period, which was partly financed by the sales proceeds of disposal of the fixed assets from the HSEL Group's Thailand subsidiary.

As a result of the above factors, the HSEL Group's profit attributable to shareholder increased from a loss of S\$5.0 million in FY2021 to a profit of S\$5.8 million in FY2022.

FY2023

Despite a net loss of S\$2.6 million, the HSEL Group recorded a net increase in cash position of S\$3.7 million arising from positive cashflow from operating activities of S\$4.4 million and investing activities of S\$0.1 million, which was offset with the cash outflow in financing activities of S\$0.9 million.

8. **Provide a statement by the directors or equivalent persons of the relevant entity as to whether, in their reasonable opinion, the working capital available to the relevant entity or, if it is the holding company or holding entity of a group, to the group, as at the date of lodgment of the offer information statement, is sufficient for at least the next 12 months and, if insufficient, how the additional working capital considered by the directors or equivalent persons to be necessary is proposed to be provided. When ascertaining whether working capital is sufficient, any financing facilities which are not available as at the date of lodgment of the prospectus must not be included, but net proceeds from the offer may be taken into account if the offer is fully underwritten. Where the offer is not fully underwritten, minimum net proceeds may be included only if it is an express condition of the offer that minimum net proceeds are to be raised and that the application moneys will be returned to investors if the minimum net proceeds are not raised.**
-

In the reasonable opinion of the Directors, barring unforeseen circumstances, as at the date of this Offer Information Statement, after taking into consideration:

- (a) the Group's internal resources and operating cash flows;
- (b) the proceeds of S\$8,000,000 from the Subscription, which were utilised for the partial settlement in cash of the principal amounts and interests under the loans owing to UOB; and
- (c) the implementation and completion of the Debt Restructuring (including the allotment and issue of the Settlement Shares) through the Creditors' Scheme and the UOB Restructuring Deed, which resulted in the immediate discharge, release and extinguishment of the Scheme Debt and balance amounts owing to UOB,

the working capital available to the Group is sufficient for at least the next 12 months.

The Undertaking Shareholder Entity has executed the Irrevocable Undertaking in favour of the Company pursuant to which it has irrevocably undertaken to, among others, subscribe and pay in full for its *pro rata* entitlement of 141,577,278 Rights Shares and up to 42,584,784 Excess Rights Shares (subject to availability) in addition to its *pro rata* entitlement under the Rights Issue, provided that the total amount to be paid by the Undertaking Shareholder Entity shall be a total of S\$1,000,000.

Notwithstanding the present sufficiency of working capital, the Directors are of the opinion that the Rights Issue will strengthen the financial position and capital base of the Group. The Rights Issue will also provide the shareholders with an opportunity to participate in the Group going forward and reduce the dilutive effect arising from the Subscriber Transactions and the Debt Restructuring.

For more details on the Irrevocable Undertaking, please refer to the section entitled "**Summary of the Rights Issue**" and paragraph 1(f) of the section entitled "**Disclosure Requirements Under the Sixteenth Schedule of the Securities and Futures (Offers of Investments) (Securities and Securities-Based Derivatives Contracts) Regulations 2018 – Part 10 – Additional Information Required for Offer of Securities or Securities-based Derivatives Contracts by way of Rights Issue**" of this Offer Information Statement.

- (a) a statement of that fact;
 - (b) details of the credit arrangement or bank loan; and

To the best knowledge of the Directors, as at the date of this Offer Information Statement and pursuant to the completion of the Subscriber Transactions, the Debt Restructuring and Transfer Listing, the Directors are not aware of any breach by any entity in the Group of any terms and conditions or covenants associated with any credit arrangement or bank loan, which could materially affect the Group's financial position and results or business operations, or the investments by holders of securities or securities-based derivatives contracts in the Company.

Trend Information and Profit Forecast or Profit Estimate

10. Discuss: -
- (a) the business and financial prospects of the relevant entity or, if it is the holding company or holding entity of a group, the group, for the next 12 months from the latest practicable date; and
 - (b) any known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on net sales or revenues, profitability, liquidity or capital resources for at least the current financial year, or that may cause financial information disclosed in the offer information statement to be not necessarily indicative of the future operating results or financial condition. If there are no such trends, uncertainties, demands, commitments or events, provide an appropriate statement to that effect.

The discussion on the business and financial prospects of the Group as set out herein may contain forward-looking statements and are subject to certain risks. Please refer to the section entitled "**Cautionary Note on Forward-Looking Statements**" of this Offer Information Statement for further details. Please also refer to the section entitled "**Risk Factors**" of this Offer Information Statement for further details on the risks relating to the Group's business and the Rights Issue.

The Group expects the oil and gas industry, particularly in Singapore, to continue to experience its share of challenges and uncertainties which may result in oil majors cutting their spending on capital expenditure and putting their long-term projects on hold. Economic, geopolitical, trade, policy and financial factors are expected to exacerbate the issue on spending curb which may in turn trigger a readjustment in the broader energy market. Oil majors are expected to continue to be focussed on issues such as energy security, supply diversification, green energy and low-carbon transition.

The current trend for the transition to green energy is expected to continue. To position itself to capitalise on emerging opportunities arising from such transition to green energy, the Group intends to continue to strengthen its maintenance capacities to assist the process industry in its green transition.

DISCLOSURE REQUIREMENTS UNDER THE SIXTEENTH SCHEDULE OF THE SECURITIES AND FUTURES (OFFERS OF INVESTMENTS) (SECURITIES AND SECURITIES-BASED DERIVATIVES CONTRACTS) REGULATIONS 2018

Rising global inflation is expected to continue to impact the Group's costs of operations. Volatile energy prices, agriculture shortages, droughts, war (such as the Russian-Ukraine war and the Israel-Hamas war), refugee crises, sanctions and precautions on new COVID-19 variant outbreaks have resulted in a global trend in increased inflation. Notwithstanding, the Group's maintenance services are expected to provide a steady revenue stream (albeit at lower margins) pursuant to long-term contracts undertaken.

Although market conditions are generally expected to remain volatile and uncertain in the next few years, the Group intends to continue to leverage on its technical expertise, foster stronger relationships with its customers and partners and embrace digitalisation and innovation to better navigate the evolving landscape, capitalise on emerging opportunities and drive the Group's growth and profitability.

Certain business factors or risks which could materially affect the Group's business, results of operations, financial condition and prospects are set out in the section entitled "**Risk Factors**" of this Offer Information Statement. There are uncertainties, demands, commitments or events that may have a material and adverse impact on the business, results of operations, financial condition and prospects of the Group, should they take place. The section entitled "**Risk Factors**" of this Offer Information Statement is only a summary, and is not an exhaustive description, of all uncertainties, demands, commitments or events. There may be additional uncertainties, demands and commitments or events not presently known to the Group or that the Group may currently deem immaterial, which could affect its business, profitability, financial position and/or results of operations.

Save as disclosed in this Offer Information Statement and, in particular, the sections entitled "**Risk Factors**" and "**Disclosure Requirements Under the Sixteenth Schedule of the Securities and Futures (Offers of Investments) (Securities and Securities-Based Derivatives Contracts) Regulations 2018 – Part 5 – Operating and Financial Review and Prospects**" in this Offer Information Statement, the annual reports, circulars and SGXNet announcements of the Company and HSEL, and barring any unforeseen circumstances, the Directors are not aware of any trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the Group's net sales or revenues, profitability, liquidity or capital resources, or that would cause financial information disclosed in this Offer Information Statement to be not necessarily indicative of the future operating results or financial condition of the Group.

PART 6 – THE OFFER AND LISTING

Offer and Listing Details

1. **Indicate the price at which the securities or securities-based derivatives contracts are being offered and the amount of any expense specifically charged to the subscriber or purchaser. If it is not possible to state the offer price at the date of lodgment of the offer information statement, state the method by which the offer price is to be determined and explain how the relevant entity will inform investors of the final offer price.**

The Issue Price is S\$0.00543 for each Rights Share, payable in full upon acceptance and/or application.

The expenses incurred by the Company in the Rights Issue will not be specifically charged to subscribers of the Rights Shares. The expenses incurred in the Rights Issue will be deducted from the gross proceeds received by the Company from the Rights Issue.

However, a non-refundable administrative fee of S\$2 will be incurred for each successful Electronic Application made through the ATMs of the respective Participating Banks and Accepted Electronic Service, and such administrative fee will be borne by the subscribers of the Rights Shares.

2. **If there is no established market for the securities or securities-based derivatives contracts being offered, provide information regarding the manner of determining the offer price, the exercise price or conversion price, if any, including the person who establishes the price or is responsible for the determination of the price, the various factors considered in such determination and the parameters or elements used as a basis for determining the price.**

The shares of HSEL were suspended from trading on the Mainboard of the SGX-ST on 28 November 2019. Pursuant to the completion of the Transfer Listing, the Company became an investment holding company owning 100.0% of the issued and paid-up share capital of HSEL and the listed vehicle in place of HSEL. Trading of the Company's Shares on the Mainboard of the SGX-ST commenced after the Latest Practicable Date on 19 February 2024. The Rights Shares, when issued, will be listed, quoted and traded on the Mainboard of the SGX-ST. Please refer to paragraphs 8(b) and 8(c) of the section entitled "***Disclosure Requirements Under the Sixteenth Schedule of the Securities and Futures (Offers of Investments) (Securities and Securities-Based Derivatives Contracts) Regulations 2018 – Part 4 – Key Information***" of this Offer Information Statement.

The Issue Price is determined to be in line with the Subscription Price, the Option Price and the issue price of the Settlement Shares to enable existing shareholders to participate in the recapitalisation of HSEL (and consequently the Company on the completion of the Transfer Listing) at a similar price to the Subscribers and the Scheme Creditors.

In particular, the Subscription Price of S\$0.00543 per Subscription Share was mutually agreed between HSEL and the Subscribers on a willing-buying, willing-seller basis, taking into consideration a *pro forma* pre-money valuation of S\$1.65 million attributable to existing shareholders of HSEL and the 303,750,000 existing shares of HSEL, resulting in a pre-money valuation of S\$0.00543 per Share and the Subscription Price of the Subscription Shares.

DISCLOSURE REQUIREMENTS UNDER THE SIXTEENTH SCHEDULE OF THE SECURITIES AND FUTURES (OFFERS OF INVESTMENTS) (SECURITIES AND SECURITIES-BASED DERIVATIVES CONTRACTS) REGULATIONS 2018

The pre-money valuation of S\$1.65 million was calculated by the Judicial Managers (as part of the restructuring exercise undertaken by the HSEL Group) with reference to:

- (a) HSEL's pre-money valuation of S\$9.0 million was calculated on a net asset value basis and attributable to the pre-Judicial Management creditors of HSEL (being Settlement Shares of an aggregate value of S\$7.35 million which were allotted and issued to the Scheme Creditors) and the existing shareholders (being the balance of the value attributable to existing shareholders of S\$1.65 million), based on a *pro forma* balance sheet for HSEL for the financial year ended 30 June 2021, adjusted for the financial effects of the Creditors' Scheme (including the distribution of S\$2.5 million in cash to the Scheme Creditors in satisfaction of a portion of the Scheme Debt).

This comprised:

- (i) S\$5.2 million of current assets;
 - (ii) S\$12.9 million of non-current assets, of which S\$8.4 million is ascribed to the Tuas Properties (the value of which would be zero without any proposed investment into HSEL due to failure to fulfil the JTC Investment Criteria); and
 - (iii) S\$9.1 million of liabilities (consisting of remaining amounts of a loan from UOB (of S\$8.0 million which was repaid by the proceeds from the Subscription) and post-Judicial Management trade payables of S\$1.1 million incurred and to be paid in the ordinary course of business (which amounted to approximately a month of working capital when such amount was computed for the basis of the pre-money valuation)); and
- (b) out of the S\$9.0 million attributable to the pre-Judicial Management creditors of HSEL and existing shareholders, Settlement Shares of an aggregate value of S\$7.35 million which were allotted and issued to the Scheme Creditors. This was determined by the Judicial Managers and agreed to by the Scheme Creditors at the Creditors' Scheme meeting held on 18 August 2022. The significant portion of HSEL's value allocated to the Scheme Creditors was to persuade the Scheme Creditors with Approved Scheme Claims to convert their debts into equity and vote in favour of the Creditors' Scheme, which was a crucial step in fulfilling of the condition precedent to the Subscriber Transactions.

The Option Price was mutually agreed between HSEL, the Company and the Subscribers on a willing-buyer, willing-seller basis, to be the same as the Subscription Price. The issue price of the Settlement Shares is in line with the Subscription Price and the Option Price.

3. If:

- (a) **any of the relevant entity's shareholders or equity interest-holders have pre-emptive rights to subscribe for or purchase the securities or securities-based derivatives contracts being offered; and**
- (b) **the exercise of the rights by the shareholder or equity interest-holder is restricted, withdrawn or waived,**

indicate the reasons for such restriction, withdrawal or waiver, the beneficiary of such restriction, withdrawal or waiver, if any, and the basis for the offer price.

Save for the Rights Issue, none of the Shareholders have pre-emptive rights to subscribe for the Rights Shares.

Basis of Provisional Allotment

The Rights Issue is made on a renounceable non-underwritten basis to Entitled Shareholders on the basis of two (2) Rights Shares for every one (1) existing Share held by Entitled Shareholders as at the Record Date, fractional entitlements to be disregarded. Based on the share capital of HSEL of 303,750,000 Shares as at the Record Date, up to 607,500,000 Rights Shares will be issued.

Entitled Shareholders

Entitled Shareholders will be allotted Rights on the basis of their shareholdings as at the Record Date. Entitled Shareholders are at liberty to accept, decline or renounce their Rights and are eligible to apply for Excess Rights Shares. Fractional entitlements to the Rights Shares will be disregarded in arriving at the provisional entitlements of Entitled Shareholders and will, together with such Rights Shares that are not validly taken up by Entitled Shareholders or their respective renouncee(s) or Purchaser(s) and any Rights Shares that are not otherwise allotted for whatever reason in accordance with the terms and conditions in this Offer Information Statement, the ARE, the PAL, the ARS and (if applicable) the Constitution, be aggregated and used to satisfy Excess Rights Shares applications (if any), or disposed of or otherwise dealt with in such manner as the Directors may, in their absolute discretion, deem fit for the benefit of the Company.

If no remittance is attached or the remittance attached is less than the full amount payable for the provisional allotment of Rights Shares accepted by the Entitled Depositor and (if applicable) the Excess Rights Shares applied for by the Entitled Depositor, the attention of the Entitled Depositor is drawn to paragraphs 1.3 and 5.2 of this Appendix which set out the circumstances and manner in which the Company and CDP shall be authorised and entitled to determine and appropriate all amounts received by CDP on the Company's behalf whether under the ARE, the ARS or any other application form for Rights Shares in relation to the Rights Issue. With respect to applications made via an Accepted Electronic Service, remittances may be rejected and refunded at CDP's discretion if they do not match the quantity of Rights Shares accepted by the Entitled Depositor indicated through such Accepted Electronic Service.

2.5. Acceptance of Part of Rights and Trading of Rights

An Entitled Depositor may choose to accept his/her/its provisional allotment of Rights Shares specified in the ARE in full or in part. If an Entitled Depositor wishes to accept part of his/her/its provisional allotment of Rights Shares and trade the balance of his/her/its provisional allotment of Rights Shares on the SGX-ST, he/she/it should:

- (a) complete and sign the ARE for the number of Rights Shares provisionally allotted which he/she/it wishes to accept and submit the duly completed and original signed ARE together with payment in the prescribed manner as described in paragraph 2.2 above to CDP; or
- (b) accept and subscribe for that part of his/her/its provisional allotment of Rights Shares by way of Electronic Application(s) in the prescribed manner as described in paragraph 2.1 or 2.3 above.

The balance of his/her/its provisional allotment of Rights Shares may be sold as soon as dealings therein commence on the SGX-ST.

Entitled Depositors who wish to trade all or part of their provisional allotments of Rights Shares on the SGX-ST during the provisional allotments trading period should note that the Rights will be tradable in board lots, each board lot comprising provisional allotments of 100 Rights Shares, or any other board lot size which the SGX-ST may require. Such Entitled Depositors may start trading in their provisional allotments of Rights Shares as soon as dealings therein commence on the SGX-ST. Entitled Depositors who wish to trade in lot sizes other than mentioned above may do so in the unit share market of the SGX-ST during the provisional allotments trading period.

2.6. Sale of Rights

The ARE need not be forwarded to the Purchasers as arrangements will be made by CDP for a separate ARS to be issued to the Purchasers whose mailing addresses maintained with CDP are in Singapore. Purchasers should note that CDP will, for and on behalf of the Company, send the OIS Notification Letter with the ARS, accompanied by other accompanying documents, **BY ORDINARY POST AND AT THE PURCHASERS' OWN RISK**, to their respective Singapore addresses as maintained in the records of CDP. Purchasers should ensure that their ARSs are accurately completed and signed, failing which their acceptances of the provisional allotments of

Rights Shares may be rejected. Purchasers who do not receive the OIS Notification Letter or the ARS, accompanied by other accompanying documents, may obtain the same from CDP or the Share Registrar, for the period up to **5.30 p.m. on 5 March 2024** (or such other time(s) and/or date(s) as may be announced from time to time by or on behalf of the Company).

Purchasers should also note that if they make any purchase on or around the last trading day of the provisional allotments of the Rights Shares, the OIS Notification Letter with the ARS and other accompanying documents might not be despatched in time for the subscription of the Rights Shares. Purchasers may obtain a copy from CDP. Alternatively, Purchasers may accept and subscribe for their Rights by way of Electronic Applications in the prescribed manner as described in paragraph 2.1 above.

This Offer Information Statement (including the ARE), the OIS Notification Letter and other accompanying documents will not be despatched or disseminated to Foreign Purchasers. Foreign Purchasers who wish to accept the provisional allotments of Rights Shares credited to their Securities Accounts should make the necessary arrangements with their Depository Agents or stockbrokers in Singapore. Foreign Purchasers are advised that their participation in the Rights Issue may be restricted or prohibited by the laws of the jurisdiction in which they are located or resident.

PURCHASERS SHOULD INFORM THEIR FINANCE COMPANIES OR DEPOSITORY AGENTS IF THEIR PURCHASES OF SUCH PROVISIONAL ALLOTMENTS OF RIGHTS SHARES ARE SETTLED THROUGH THESE INTERMEDIARIES. IN SUCH INSTANCES, IF THE PURCHASERS WISH TO ACCEPT THE RIGHTS SHARES REPRESENTED BY THE PROVISIONAL ALLOTMENTS OF RIGHTS SHARES PURCHASED, THEY WILL NEED TO GO THROUGH THESE INTERMEDIARIES, WHO WILL THEN ACCEPT THE PROVISIONAL ALLOTMENTS OF RIGHTS SHARES ON THEIR BEHALF.

2.7. Renunciation of Rights

Entitled Depositors who wish to renounce in full or in part their provisional allotments of Rights Shares in favour of a third party should complete the relevant transfer forms with CDP (including any accompanying documents as may be required by CDP) for the number of provisional allotments of Rights Shares which they wish to renounce. Such renunciation shall be made in accordance with the “*Terms and Conditions for Operations of Securities Accounts with CDP*”, as the same may be amended from time to time, copies of which are available from CDP. As CDP requires at least three (3) Market Days to effect such renunciation, Entitled Depositors who wish to renounce are advised to do so early to allow sufficient time for CDP to send the ARS and other accompanying documents, for and on behalf of the Company, to the renounee by ordinary post and **AT HIS/HER/ITS OWN RISK**, to his/her/its Singapore address as maintained in the records of CDP and for the renounee to accept his/her/its provisional allotments of Rights Shares. The last time and date for acceptance of the provisional allotments of Rights Shares and payment for the Rights Shares by the renounee is **5.30 p.m. on 5 March 2024** (or such other time(s) and/or date(s) as may be announced from time to time by or on behalf of the Company).

3. COMBINATION APPLICATION

In the event that the Entitled Depositor or the Purchaser accepts his/her/its provisional allotments of Rights Shares by way of the ARE and/or the ARS and also by way of Electronic Application(s) and/or has applied for Excess Rights Shares by way of the ARE and also by way of Electronic Application(s), the Company and/or CDP shall be authorised and entitled to accept his/her/its instructions in whichever mode or combination as the Company and/or CDP may, in their/its absolute discretion, deem fit. Without prejudice to the generality of the foregoing, in such a case, the Entitled Depositor or the Purchaser shall be regarded as having irrevocably authorised the Company and/or CDP to apply all amounts received whether under the ARE, the ARS and (if applicable) any other acceptance of Rights Shares provisionally allotted to him/her/it and/or application for Excess Rights Shares (including an Electronic Application(s)) in whichever mode or combination as the Company and/or CDP may, in their/its absolute discretion, deem fit.

or otherwise dealt with in such manner as the Directors may, in their absolute discretion, deem fit. All unsuccessful application monies received by CDP in connection therewith will be returned by CDP for and on behalf of the Company to the Entitled Depositors or the Purchasers, as the case may be, without interest or any share of revenue or other benefit arising therefrom, by crediting their designated bank accounts with the relevant Participating Bank (if he/she/it accepts and (if applicable) apply through an ATM of a Participating Bank) or through an Accepted Electronic Service or by crediting his/her/its designated bank account via CDP's Direct Crediting Service **AT THE ENTITLED DEPOSITOR'S OR PURCHASER'S OWN RISK (AS THE CASE MAY BE)**. In the event that he/she/it is not subscribed to CDP's Direct Crediting Service, any monies to be paid shall be credited to his/her/its Cash Ledger and subject to the same terms and conditions as Cash Distributions under the CDP Operation of Securities Account with the Depository Terms and Conditions (Cash Ledger and Cash Distribution are as defined therein) (such retention by CDP being a good discharge of the Company's and CDP's obligations), as the case may be, (in each case) **AT HIS/HER/ITS OWN RISK** or in such other manner as he/she/it may have agreed with CDP for the payment of any cash distributions without interest or any share of revenue or other benefit arising therefrom (if he/she/it accepts and (if applicable) apply through CDP).

5.2. Appropriation

Without prejudice to paragraph 1.3 of this Appendix A, an Entitled Depositor should note that:

- (a) by accepting his/her/its provisional allotment of Rights Shares and/or (if applicable) applying for Excess Rights Shares, he/she/it acknowledges that, in the case where the amount of remittance payable to the Company in respect of his/her/its acceptance of the Rights Shares provisionally allotted to him/her/it and (if applicable) in respect of his/her/its application for Excess Rights Shares as per the instructions received by CDP whether under the ARE, the ARS and/or in any other application form for Rights Shares in relation to the Rights Issue differs from the amount actually received by CDP, the Company and/or CDP shall be authorised and entitled to determine and appropriate all amounts received by CDP on the Company's behalf for each application on its own whether under the ARE, the ARS and/or any other application form for Rights Shares in relation to the Rights Issue as follows: firstly, towards payment of all amounts payable in respect of his/her/its acceptance of the Rights Shares provisionally allotted to him; and secondly, (if applicable) towards payment of all amounts payable in respect of his/her/its application for Excess Rights Shares. The determination and appropriation by the Company and CDP shall be conclusive and binding;
- (b) if the Entitled Depositor has attached a remittance to the ARE, the ARS and/or any other application form for Rights Shares and/or Excess Rights Shares in relation to the Rights Issue made through CDP, he/she/it would have irrevocably authorised the Company and CDP, in applying the amounts payable for his/her/its acceptance of the Rights Shares and (if applicable) his/her/its application for Excess Rights Shares, to apply the amount of the remittance which is attached to the ARE, the ARS and/or any other application form for Rights Shares and/or Excess Rights Shares in relation to the Rights Issue made through CDP; and
- (c) in the event that the Entitled Depositor accepts the Rights Shares provisionally allotted to him/her/it by way of the ARE and/or the ARS and/or has applied for Excess Rights Shares by way of the ARE and also by way of Electronic Application(s), the Company and/or CDP shall be authorised and entitled to accept his/her/its instructions in whichever mode or combination as the Company and/or CDP may, in their/its absolute discretion, deem fit. Without prejudice to the generality of the foregoing, in such a case, the Entitled Depositor shall be deemed as having irrevocably authorised the Company and/or CDP to apply all amounts received whether under the ARE, the ARS and/or any other acceptance and/or application for Excess Rights Shares (including Electronic Application(s)) in whichever mode or combination as the Company and/or CDP may, in their/its absolute discretion, deem fit.

APPENDIX A – PROCEDURES FOR ACCEPTANCE, PAYMENT AND EXCESS APPLICATIONS BY ENTITLED DEPOSITORS

5.3. Availability of Excess Rights Shares

The Excess Rights Shares available for application are subject to the terms and conditions contained in the ARE, this Offer Information Statement and (if applicable) the Constitution of the Company. Applications for Excess Rights Shares will, at the Directors' absolute discretion, be satisfied from such Rights Shares as are not validly taken up by the Entitled Shareholders, the original allottee(s) or their respective renouncee(s) or the Purchaser(s) of the provisional allotments of Rights Shares together with the aggregated fractional entitlements to the Rights Shares (if any) and any Rights Shares that are otherwise not allotted for whatever reason in accordance with the terms and conditions contained in the ARE, this Offer Information Statement and (if applicable) the Constitution of the Company. In the event that applications are received by the Company for more Excess Rights Shares than are available, the Excess Rights Shares available will be allotted in such manner as the Directors may, in their absolute discretion, deem fit in the interests of the Company. **CDP TAKES NO RESPONSIBILITY FOR ANY DECISION THAT THE DIRECTORS MAY MAKE.** In the allotment of Excess Rights Shares, preference will be given to the rounding of odd lots, and the Directors and Substantial Shareholders who have control or influence over the Company in connection with the day-to-day affairs of the Company or the terms of the Rights Issue, or have representation (direct or through a nominee) on the Board of Directors, including the Undertaking Shareholder Entity, will rank last in priority for the rounding of odd lots and allotment of Excess Rights Shares. The Company reserves the right to refuse any application for Excess Rights Shares, in whole or in part, without assigning any reason whatsoever. In the event that the number of Excess Rights Shares allotted to an Entitled Depositor is less than the number of Excess Rights Shares applied for, the Entitled Depositor shall be deemed to have accepted the number of Excess Rights Shares actually allotted to him.

If no Excess Rights Shares are allotted or if the number of Excess Rights Shares allotted is less than that applied for, the amount paid on application or the surplus application moneys, as the case may be, will be refunded to such Entitled Depositors, without interest or any share of revenue or other benefit arising therefrom, within three (3) Market Days after the commencement of the trading of the Rights Shares, (a) by crediting their bank accounts with a Participating Bank **AT THEIR OWN RISK** (if they had applied for Excess Rights Shares by way of an Electronic Application through an ATM of a Participating Bank or an Accepted Electronic Service), the receipt by such banks being a good discharge to the Company and CDP of their obligations, if any, thereunder, or (b) by crediting their designated bank accounts via CDP's Direct Crediting Service **AT THEIR OWN RISK**. In the event they are not subscribed to CDP's Direct Crediting Service, any monies to be paid shall be credited to their Cash Ledger and subject to the same terms and conditions as Cash Distributions under the CDP Operation of Securities Account with the Depository Terms and Conditions (Cash Ledger and Cash Distribution are as defined therein) (such retention by CDP being a good discharge of the Company's and CDP's obligations), as the case may be, (in each case) **AT THEIR OWN RISK** or in such other manner as they may have agreed with CDP for the payment of any cash distributions without interest or any share of revenue or other benefit arising therefrom (if they accept and (if applicable) apply through CDP).

5.4. Deadlines

It should be particularly noted that unless:

APPENDIX B – ADDITIONAL TERMS AND CONDITIONS FOR ELECTRONIC APPLICATIONS THROUGH AN ATM OF A PARTICIPATING BANK

The procedures for Electronic Applications through ATMs of the Participating Banks are set out on the ATM screens of the relevant Participating Banks.

Please read carefully the terms and conditions of this Offer Information Statement, the procedures for Electronic Applications on the ATM screens of the relevant Participating Banks and the terms and conditions for Electronic Applications through an ATM of a Participating Bank set out below before making an Electronic Application through an ATM of a Participating Bank. An ATM card issued by one Participating Bank cannot be used to accept provisional allotments of Rights Shares and (if applicable) apply for Excess Rights Shares at an ATM belonging to other Participating Banks. Any Electronic Application through an ATM of a Participating Bank which does not strictly conform to the instructions set out on the screens of the ATM of a Participating Bank through which the Electronic Application is made will be rejected.

All references to “Rights Issue” and “Rights Application” on the ATM screens of the Participating Banks shall mean the offer of Rights Shares under the Rights Issue and the acceptance of Rights and (if applicable) the application for Excess Rights Shares, respectively. All references to “Document” on the ATM screens of the Participating Banks shall mean this Offer Information Statement.

Any reference to the “**Electronic Applicant**” in the terms and conditions for Electronic Applications through an ATM of a Participating Bank and the procedures for Electronic Applications on the ATM screens of the relevant Participating Banks shall mean the Entitled Depositor or his/her/its renouncee or the Purchaser of the provisional allotments of Rights Shares or (as the case may be) who applies for the Excess Rights Shares through an ATM of a Participating Bank.

An Electronic Applicant must have an existing bank account with, and be an ATM cardholder of, one of the Participating Banks before he/she/it can make an Electronic Application through an ATM of that Participating Bank. The actions that the Electronic Applicant must take at ATMs of the Participating Banks are set out on the ATM screens of the relevant Participating Banks. Upon the completion of his/her/its Electronic Application transaction through an ATM of a Participating Bank, the Electronic Applicant will receive an ATM transaction slip, confirming the details of his/her/its Electronic Application. The ATM transaction slip is for retention by the Electronic Applicant and should not be submitted with any ARE and/or ARS.

An Electronic Applicant, including one who has a joint bank account with a Participating Bank, must ensure that he/she/it enters his/her/its own Securities Account number when using the ATM card issued to him/her/it by that Participating Bank in his/her/its own name. Using his/her/its own Securities Account number with an ATM card which is not issued to him/her/it by that Participating Bank in his/her/its own name will render his/her/its acceptance or (as the case may be) excess application liable to be rejected.

For CPFIS Members, SRS Investors and investors who hold Shares through finance companies or Depository Agents, acceptances of the provisional allotments of Rights Shares and (if applicable) applications for excess Rights Shares must be done through their respective CPF agent banks with whom they hold their CPF Investments Account, their respective SRS Approved Banks with whom they hold their SRS accounts, and their respective finance companies or Depository Agents, respectively. **ANY ACCEPTANCE AND/OR (IF APPLICABLE) APPLICATION MADE DIRECTLY BY THE ABOVE-MENTIONED PERSONS THROUGH CDP, ELECTRONIC APPLICATIONS THROUGH ATMS OF THE PARTICIPATING BANKS, THE SHARE REGISTRAR AND/OR THE COMPANY WILL BE REJECTED.** The above-mentioned persons, where applicable, will receive notification letter(s) from their respective approved CPF agent banks with whom they hold their CPF Investments Accounts, their respective SRS Approved Banks with whom they hold their SRS accounts, and their respective finance companies or Depository Agents, as the case may be, and should refer to such notification letter(s) for details of the last date and time to submit acceptances of the provisional allotments of Rights Shares and (if applicable) applications for excess Rights Shares to their respective approved CPF agent banks with whom they hold their CPF Investment Accounts, their respective SRS Approved Banks with whom they hold their SRS

CPFIS Members, SRS Investors and investors who hold Shares through finance companies or Depository Agents should refer to the section entitled “*Important Notice to CPFIS Members, SRS Investors and Investors who hold Shares through a Finance Company and/or Depository Agent*” of this Offer Information Statement for details relating to the application procedure for them.

For renouncees of Entitled Shareholders or Purchasers whose purchases are settled through finance companies or Depository Agents, acceptances of the Rights Shares represented by the provisional allotments of Rights Shares must be done through their respective finance companies or Depository Agents, as the case may be. **ANY ACCEPTANCE MADE DIRECTLY BY SUCH RENOUNCEES AND PURCHASERS THROUGH CDP, ELECTRONIC APPLICATIONS THROUGH ATMS OF THE PARTICIPATING BANKS OR THROUGH AN ACCEPTED ELECTRONIC SERVICE, THE SHARE REGISTRAR AND/OR THE COMPANY WILL BE REJECTED.** Such renouncees and Purchasers will receive notification letter(s) from their respective finance companies or Depository Agents, as the case may be, and should refer to such notification letter(s) for details of the last date and time to submit acceptances of the provisional allotments of Rights Shares to their respective finance companies or Depository Agents, as the case may be. Such renouncees or Purchasers are advised to provide their respective finance companies or Depository Agents, as the case may be, with the appropriate instructions early in order for such intermediaries to make the relevant acceptances on their behalf by the Closing Date.

The Electronic Application through an ATM of a Participating Bank shall be made on, and subject to, the terms and conditions of this Offer Information Statement including, but not limited to, the terms and conditions appearing below:

- (1) In connection with his/her/its Electronic Application for the Rights Shares, the Electronic Applicant is required to confirm statements to the following effect in the course of activating the ATM for his/her/its Electronic Application:
 - (a) that he/she/it has access to the electronic version of this Offer Information Statement and/or possession of the OIS Notification Letter and/or its accompanying documents and has read, understood and agreed to all the terms and conditions of acceptance of and (as the case may be) application for the Rights Shares under the Rights Issue and this Offer Information Statement prior to effecting the Electronic Application and agrees to be bound by the same; and
 - (b) that he/she/it consents to the disclosure of his/her/its Securities Account maintained in CDP’s record, including, without limitation, his/her/its name(s), his/her NRIC number(s) or passport number(s), Securities Account number(s), address(es), nationality and application details (the “**Relevant Particulars**”) from his account with that Participating Bank to the Share Registrar, CDP, the SGX-ST, the Company and any other relevant parties (the “**Relevant Parties**”) as CDP may deem fit for the purpose of the Rights Issue and his/her/its acceptance and/or (if applicable) excess application.

His/Her/Its application will not be successfully completed and cannot be recorded as a completed transaction unless he/she/it presses the “**Enter**” or “**OK**” or “**Confirm**” or “**Yes**” key, as the case may be. By doing so, the Electronic Applicant shall be treated as signifying his/her/its confirmation of each of the two (2) statements above. In respect of statement 1(b) above, his/her/its confirmation, by pressing the “**Enter**” or “**OK**” or “**Confirm**” or “**Yes**” key, as the case may be, shall signify and shall be treated as his/her/its written permission, given in accordance with the relevant laws of Singapore including Section 47(2) and the Third Schedule of the Banking Act 1970 of Singapore, to the disclosure by that Participating Bank of the Relevant Particulars to the Relevant Parties.

- (2) An Electronic Applicant may make an Electronic Application through an ATM of a Participating Bank for the Rights Shares using cash only by authorising such Participating Bank to deduct the full amount payable from his/her/its bank account with such Participating Bank.

In the event that the Company decides to allot any lesser number of such Excess Rights Shares or not to allot any number of Excess Rights Shares to the Electronic Applicant, the Electronic Applicant agrees to accept the decision as conclusive and binding.
- (4) If the Electronic Applicant’s Electronic Application is successful, his/her/its confirmation (by his/her/its action of pressing the “**Enter**” or “**OK**” or “**Confirm**” or “**Yes**” key, as the case may be, on the ATM screen) of the number of Rights Shares accepted and/or Excess Rights Shares applied for shall signify and shall be treated as his/her/its acceptance of the number of Rights Shares accepted and/or Excess Rights Shares applied for that may be allotted to him/her/it.
- (5) In the event that the Electronic Applicant accepts the Rights Shares and (if applicable) instructions to apply for Excess Rights Shares together with payment therefor both by way of the ARE and/or the ARS (as the case may be) and/or by way of acceptance through Electronic Application through an ATM of a Participating Bank or an Accepted Electronic Service, the Company and/or CDP shall be authorised and entitled to accept the Electronic Applicant’s instructions in whichever mode or a combination thereof as they may, in their/its absolute discretion, deem fit. In determining the number of Rights Shares which the Electronic Applicant has validly given instructions to accept, the Electronic Applicant shall be deemed to have irrevocably given instructions to accept the lesser of the aggregate number of provisionally allotted Rights Shares which have been accepted by the Electronic Applicant by way of the ARE and/or the ARS (as the case may be) and by Electronic Application through an ATM of a Participating Bank or an Accepted Electronic Service, and the number of Rights Shares represented by the provisional allotment of the Rights Shares standing to the credit of “Free Balance” of his/her/its Securities Account which is available for acceptance and payment as at the Closing Date. The Company and/or CDP, in determining the number of Rights Shares for which the Electronic Applicant has validly given instructions to accept, shall be authorised and entitled to have regard to the aggregate amount of payment received for the acceptance of Rights Shares, whether by way of Cashier’s Order or Banker’s Draft drawn on a bank in Singapore accompanying the ARE and/or the ARS or by way of the acceptance through Electronic Application through an ATM of a Participating Bank or an Accepted Electronic Service, which the Electronic Applicant has authorised or deemed to have authorised to be applied towards the payment in respect of his/her/its acceptance.
- (6) If applicable, in the event that the Electronic Applicant applies for Excess Rights Shares both by way of the ARE and by way of an application through Electronic Application through an ATM of a Participating Bank or an Accepted Electronic Service, the Company and/or CDP shall be authorised and entitled to accept the Electronic Applicant’s instructions in whichever mode or a combination thereof as they may, in their/its absolute discretion, deem fit. In determining the number of Excess Rights Shares which the Electronic Applicant has validly given instructions to apply for, the Electronic Applicant shall be deemed to have irrevocably given instructions to apply for and agreed to accept such number of Excess Rights Shares not exceeding the aggregate number of Excess Rights Shares for which he/she/it has applied by way of the ARE and/or by Electronic Application through an ATM of a Participating Bank or an Accepted Electronic Service. The Company and/or CDP, in determining the number of Excess Rights Shares which the Electronic Applicant has given valid instructions to apply for, shall be authorised and entitled to have regard to the aggregate amount of payment received for the application for the Excess Rights Shares, whether by way of Cashier’s Order or Banker’s Draft in Singapore currency drawn on a bank in Singapore accompanying the ARE or by way of application through Electronic Application through an ATM of a Participating Bank, which the Electronic Applicant has authorised or is deemed to have authorised to be applied towards the payment in respect of his/her/its application.

With regard to any acceptance of the provisional allotments of Rights Shares, (if applicable) application for Excess Rights Shares and/or payment which does not conform strictly to the instructions set out under this Offer Information Statement, the ARE, the ARS, the PAL and/or any other application form for the Rights Shares and/or Excess Rights Shares in relation to the Rights Issue or which does not comply with the terms and conditions of this Offer Information Statement, or in the case of an acceptance and/or application by the ARE, the ARS, the PAL and/or any other application form for the Rights Shares and/or Excess Rights Shares in relation to the Rights Issue which is illegible, incomplete, incorrectly completed, unsigned, signed but not in its originality or which is accompanied by an improperly or insufficiently drawn remittance, the Company and/or the Share Registrar may, at their/its absolute discretion, accept, reject, treat as invalid any such acceptance, (if applicable) application, payment and/or other process of remittance at any time after receipt in such manner as they/it may deem(s) fit.
- 1.5. The Company and/or the Share Registrar shall be entitled to process each application submitted for the acceptance of the provisional allotments of Rights Shares and (if applicable) application for Excess Rights Shares in relation to the Rights Issue and the payment received in relation thereto, pursuant to such application, by an Entitled Scripholder, on its own, without regard to any other application and payment that may be submitted by the same Entitled Scripholder. For the avoidance of doubt, insufficient payment for an application may render the application invalid and evidence of payment (or overpayment) in other applications shall not constitute, or be construed as, an affirmation of such invalid acceptance of the provisional allotments of Rights Shares and (if applicable) application for Excess Rights Shares.

APPENDIX C – PROCEDURES FOR APPLICATION, SPLITTING, RENUNCIATION, EXCESS APPLICATION AND PAYMENT BY ENTITLED SCRIPHOLDERS

- 1.6. Entitled Scripholders who intend to trade any part of their provisional allotments of Rights Shares on the SGX-ST should note that all dealings in and transactions of the provisional allotments of Rights Shares through the SGX-ST will be effected under the book-entry (scripless) settlement system. Accordingly, the PALs will not be valid for delivery pursuant to trades done on the SGX-ST.
- 1.7. Unless expressly provided to the contrary in this Offer Information Statement and/or the PAL, a person who is not a party to any contracts made pursuant to this Offer Information Statement and/or the PAL has no rights under the Contracts (Rights of Third Parties) Act 2001 of Singapore, to enforce any term of such contracts. Notwithstanding any term contained herein, the consent of any third party is not required for any subsequent agreement by the parties thereto to amend or vary (including any release or compromise of any liability) or terminate such contracts. Where third parties are conferred rights under such contracts, those rights are not assignable or transferable.
- 1.8. By subscribing in the Rights Issue, an Entitled Scripholder or a renouncee will be deemed to warrant, represent, agree and acknowledge that (a) he/she/it, and any account on whose behalf he/she/it is subscribing, are, (i) outside the United States (within the meaning of Regulation S under the Securities Act) and (ii) acquiring the Rights and/or the Rights Shares in any “offshore transaction” as defined in, and in reliance on, Regulation S under the Securities Act; (b) the Rights and/or the Rights Shares have not been and will not be registered under the Securities Act and are being distributed and offered outside the United States on Regulation S under the Securities Act; and (c) the Company, the Company’s advisers and their respective affiliates and others will rely upon the truth and accuracy of the foregoing representations and agreements.

in each case, the attention of the Entitled Scripholder is drawn to paragraph 2.3 of this Appendix C entitled “**Appropriation**” which sets out the circumstances and manner in which the Company and/or the Share Registrar shall be authorised and entitled to determine the number of Rights Shares which the Entitled Scripholder has given instructions to accept.

An Entitled Scripholder should note that by accepting his/her/its provisional allotment of Rights Shares, he/she/it acknowledges that, the Company and the Share Registrar, in determining the number of Rights Shares which the Entitled Scripholder has given instructions to accept, shall be authorised and entitled to have regard to the aggregate amount of payment received for the acceptance of Rights Shares, whether by way of Cashier's Order or Banker's Draft drawn on a bank in Singapore to be applied towards the payment of his/her/its acceptance of Rights Shares.

3. REQUEST FOR SPLITTING (FORM B), FORM OF RENUNCIATION (FORM C) AND FORM OF NOMINATION (FORM D)

Entitled Scripholders who wish to accept a portion of their provisional allotment of Rights Shares and renounce the balance of their provisional allotment of Rights Shares, or who wish to renounce all or part of their provisional allotments of Rights Shares in favour of more than one (1) person, should first, using Form B, request to have their provisional allotments under the PAL split into separate PALs ("**Split Letters**") according to their requirements.
- 3.2. The duly completed and signed Form B together with the PAL, in its entirety, should then be returned to **HIAP SENG INDUSTRIES LIMITED, C/O THE SHARE REGISTRAR, BOARDROOM CORPORATE & ADVISORY SERVICES PTE. Split Letters will then be issued to Entitled Scripholders in accordance with their request. No Split Letters will be issued to Entitled Scripholders if Form B is received after **5.00 p.m. on 28 February 2024** (or such other time(s) and/or date(s) as may be announced from time to time by or on behalf of the Company).
- 3.3. The Split Letters representing the number of Rights Shares which Entitled Scripholders intend to renounce, may be renounced by completing and signing Form C before delivery to the renounee(s). APPENDIX C – PROCEDURES FOR APPLICATION, SPLITTING, RENUNCIATION, EXCESS APPLICATION AND PAYMENT BY ENTITLED SCRIPHOLDERS

- 3.6. Each Entitled Scripholder may consolidate the Rights Shares provisionally allotted in the PAL together with those comprised in any PALs and/or Split Letters renounced in his/her/its favour by completing and signing Form A and the Consolidated Listing Form in Form D of the PAL and attaching thereto all the said renounced PALs and/or Split Letters, each duly completed and signed and with the serial number of the Principal PAL (as hereinafter defined) stated on each of them. A renouncee who is not an Entitled Scripholder and who wishes to consolidate the provisional allotments of Rights Shares comprised in several renounced PALs and/or Split Letters in one name only or in the name of a joint Securities Account should complete the Consolidated Listing Form in Form D of only one (1) PAL or Split Letter (the “**Principal PAL**”) by entering therein details of the renounced PALs and/or Split Letters and attaching thereto all the said renounced PALs and/or Split Letters, each duly completed and signed, and with the serial number of the Principal PAL stated on each of them. **ALL THE RENOUNCED PALs AND SPLIT LETTERS, EACH DULY COMPLETED AND SIGNED, MUST BE ATTACHED TO FORM A OR FORM D (AS THE CASE MAY BE).**

4. PAYMENT

- 4.1. Payment in relation to the PALs for Rights Shares must be made in Singapore currency in the form of a Cashier's Order or Banker's Draft drawn on a bank in Singapore and made payable to “**HIAP SENG IND RIGHTS ISSUE ACCOUNT**” and crossed “**NOT NEGOTIABLE, A/C PAYEE ONLY**” with the name and address of the Entitled Scripholder or accepting party clearly written in block letters on the reverse side of the Cashier's Order or Banker's Draft. The completed and signed PAL and remittance should be addressed and forwarded **AT THE SENDER'S OWN RISK TO HIAP SENG INDUSTRIES LIMITED, C/O THE SHARE REGISTRAR, BOARDROOM CORPORATE & ADVISORY SERVICES PTE. LTD., 1 HARBOURFRONT AVENUE, #14-07, KEPPEL BAY TOWER, SINGAPORE 098632** by **5.30 p.m. on 5 March 2024** (or such other time(s) and/or date(s) as may be announced from time to time by or on behalf of the Company). **NO OTHER FORMS OF PAYMENT (INCLUDING THE USE OF A PERSONAL CHEQUE, POSTAL ORDER OR MONEY ORDER ISSUED BY A POST OFFICE IN SINGAPORE) WILL BE ACCEPTED.**
- 4.2. If acceptance and (if applicable) excess application and payment in the prescribed manner as set out in this Offer Information Statement and the PAL is not received by **5.30 p.m. on 5 March 2024** (or such other time(s) and/or date(s) as may be announced from time to time by or on behalf of the Company), the provisional allotment of Rights Shares will be deemed to have been declined and shall forthwith lapse and become void and cease to be capable of acceptance and such provisional allotment of Rights Shares not so accepted will be used to satisfy excess applications, if any, or disposed of or dealt with in such manner as the Directors may, in their absolute discretion, deem fit in the interests of the Company. The Company will return or refund all unsuccessful application monies received in connection therewith **BY ORDINARY POST AND AT THE RISK OF THE ENTITLED SCRIPHOLDERS OR THEIR RENOUNCEE(S), AS THE CASE MAY BE**, without interest or any share of revenue or other benefit arising therefrom, within three (3) business days after the commencement of the trading of the Rights Shares.

5. APPLICATION FOR EXCESS RIGHTS SHARES (FORM E)

- 5.1. Form E contains full instructions with regard to Excess Rights Shares application, and payment and the procedures to be followed if you wish to apply for Rights Shares in excess of your provisional allotment of Rights Shares. Entitled Scripholders who wish to apply for Excess Rights Shares in addition to those which have been provisionally allotted to them may do so by completing, signing the Form E of the PAL and forwarding it together with the PAL for Rights Shares in its entirety with a **SEPARATE SINGLE REMITTANCE** for the full amount payable in respect of the Excess Rights Shares applied for in the form and manner as set out above to **HIAP SENG INDUSTRIES LIMITED, C/O THE SHARE REGISTRAR, BOARDROOM CORPORATE & ADVISORY SERVICES PTE. LTD., 1 HARBOURFRONT AVENUE, #14-07, KEPPEL BAY TOWER, SINGAPORE 098632** so as to arrive not later than **5.30 p.m. on 5 March 2024** (or such other time(s) and/or date(s) as may be announced from time to time by or on behalf of the Company). **NO OTHER FORM OF PAYMENT (INCLUDING THE USE OF A PERSONAL CHEQUE, POSTAL ORDER OR MONEY ORDER ISSUED BY A POST OFFICE IN SINGAPORE) WILL BE ACCEPTED.**

APPENDIX C – PROCEDURES FOR APPLICATION, SPLITTING, RENUNCIATION, EXCESS APPLICATION AND PAYMENT BY ENTITLED SCRIPHOLDERS

- 5.2. Applications for Excess Rights Shares are subject to the terms and conditions contained in the PAL, Form E, this Offer Information Statement and (if applicable) the Constitution of the Company. Applications for Excess Rights Shares will, at the Directors' absolute discretion, be satisfied from such Rights Shares as are not validly taken up by the Entitled Scripholders, the original allottee(s) or their respective renouncee(s), or the Purchaser(s) of the provisional allotment of Rights Shares, the aggregate fractional entitlements of the Rights Shares and any Rights Shares that are otherwise not allotted for whatever reason in accordance with the terms and conditions contained in this Offer Information Statement, the PAL, Form E and (if applicable) the Constitution of the Company.
- 5.3. In the event that applications are received by the Company for more Excess Rights Shares than are available, the Excess Rights Shares available will be allotted in such manner as the Directors may, in their absolute discretion, deem fit in the interests of the Company. In the allotment of Excess Rights Shares, preference will be given to Shareholders for the rounding of odd lots. Directors and Substantial Shareholders who have control or influence over the Company in connection with the day-to-day affairs of the Company or the terms of the Rights Issue, or have representation on the Board (direct or through a nominee), including the Undertaking Shareholder Entity, will rank last in priority for the rounding of odd lots and allotment of Excess Rights Shares. The Company reserves the right to reject, in whole or in part, any application for Excess Rights Shares without assigning any reason whatsoever. For the avoidance of doubt, only Entitled Shareholders (and not Purchasers or renouncees) shall be entitled to apply for Excess Rights Shares in excess of their provisional allotments.
- 5.4. In the event that the number of the Excess Rights Shares allotted to Entitled Scripholders is less than the number of Excess Rights Shares applied for, Entitled Scripholders shall be deemed to have accepted the number of Excess Rights Shares actually allotted to them. If no Excess Rights Shares are allotted to Entitled Scripholders or if the number of Excess Rights Shares allotted to them is less than that applied for, it is expected that the amount paid on application or the surplus of the application monies for Excess Rights Shares received by the Company, as the case may be, will be returned or refunded to them by the Company without interest or any share of revenue or other benefit arising therefrom, within three (3) business days after the commencement of trading of the Rights Shares, by means of a crossed cheque drawn on a bank in Singapore and sent, **BY ORDINARY POST** to their mailing addresses as maintained with the Share Registrar **AT THEIR OWN RISK**.
- 6. GENERAL**
- 6.1. No acknowledgements or receipts will be issued in respect of any acceptances, remittances, applications or payments received.
- 6.2. **Entitled Scripholders who are in any doubt as to the action they should take should consult their stockbroker, bank manager, solicitor, accountant or other professional adviser(s) immediately.**
- 6.3. Upon listing and quotation on the Mainboard of the SGX-ST, the Rights Shares, when issued will be traded under the book-entry (scripless) settlement system. All dealings in and transactions (including transfers) of the Rights Shares effected through the SGX-ST and/or CDP shall be made in accordance with CDP's "*Terms and Conditions for Operation of Securities Accounts with The Central Depository (Pte) Limited*", as the same may be amended from time to time. A copy of the above is available from CDP.

APPENDIX C – PROCEDURES FOR APPLICATION, SPLITTING, RENUNCIATION, EXCESS APPLICATION AND PAYMENT BY ENTITLED SCRIPHOLDERS

- 6.4. To facilitate scripless trading, Entitled Scripholders and their renounees who wish to accept the Rights Shares provisionally allotted to them and (if applicable) apply for excess Rights Shares, and who wish to trade the Rights Shares issued to them on the SGX-ST under the book-entry (scripless) settlement system, should open and maintain Securities Accounts with CDP in their own names if they do not already maintain such Securities Accounts in order that the number of Rights Shares and (if applicable) the excess Rights Shares that may be allotted to them can be credited by CDP into their Securities Accounts. Entitled Scripholders and their renounees who wish to accept and/or (if applicable) apply for the excess Rights Shares and have their Rights Shares credited into their Securities Accounts must fill in their Securities Account numbers and/or NRIC/passport numbers (for individuals) or registration numbers (for corporations) in the relevant forms comprised in the PAL. Entitled Scripholders and their renounees who fail to fill in their Securities Account numbers and/or NRIC/passport numbers (for individuals) or registration numbers (for corporations) or who provide incorrect or invalid Securities Account numbers and/or NRIC/passport numbers (for individuals) or registration numbers (for corporations) or whose particulars provided in the forms comprised in the PAL differ from those particulars in their Securities Accounts currently maintained with CDP will be issued physical share certificates in their own names for the Rights Shares allotted to them and if applicable, the Excess Rights Shares allotted to them. Such physical share certificates, if issued, will not be valid for delivery pursuant to trades done on the SGX-ST under the book entry (scripless) settlement system, although they will continue to be *prima facie* evidence of legal title. These physical share certificates will be sent BY ORDINARY POST to person(s) entitled thereto AT HIS/HER/THEIR OWN RISK.
- 6.5. If the Entitled Scripholders' addresses stated in the PAL are different from their addresses maintained in the records of CDP, they must inform CDP of their updated addresses promptly, failing which the notification letter on successful allotments and other correspondences will be sent to their addresses last registered with CDP.
- 6.6. A holder of physical share certificate(s), or an Entitled Scripholder who has not deposited his/her/its share certificate(s) with CDP but who wishes to trade on the SGX-ST, must deposit with CDP his/her/its existing share certificate(s), together with the duly executed instrument(s) of transfer (including any applicable fees) in favour of CDP, and have his/her/its Securities Account credited with the number of Rights Shares and/or existing Shares, as the case may be, before he/she/it can effect the desired trade.
- 6.7. **THE FULL AMOUNT PAYABLE FOR THE RELEVANT NUMBER OF RIGHTS SHARES ACCEPTED/APPLIED FOR WILL BE ROUNDED UP TO THE NEAREST WHOLE CENT, IF APPLICABLE.**
- 6.8. **THE FINAL TIME AND DATE FOR ACCEPTANCES AND/OR APPLICATIONS AND PAYMENT FOR THE RIGHTS SHARES UNDER THE RIGHTS ISSUE IS 5.30 P.M. on 5 MARCH 2024 (OR SUCH OTHER TIME(S) AND/OR DATE(S) AS MAY BE ANNOUNCED FROM TIME TO TIME BY OR ON BEHALF OF THE COMPANY).**

7. PERSONAL DATA PRIVACY

By completing and delivering the PAL, an Entitled Scripholder or a renounee (a) consents to the collection, use and disclosure of his/her personal data by the Relevant Persons for the purpose of facilitating his/her application for the Rights Shares, and in order for the Relevant Persons to comply with any applicable laws, listing rules, regulations and/or guidelines, (b) warrants that where he/she discloses the personal data of another person, such disclosure is in compliance with applicable law, and (c) agrees that he/she will indemnify the Relevant Persons in respect of any penalties, liabilities, claims, demands, losses and damages as a result of his/her breach of warranty.
